

CITY OF SAN ANTONIO

P.O. Box 839966
San Antonio, Texas 78283-3966

ADDENDUM I

SUBJECT: Formal Invitation For Bid (IFB) 2011 - 2012 Task Order Contract for Traffic Signal Equipment Modifications (Prj. No. 23-12060001) Dated: October 10, 2010

DATE: December 20, 2010

A. QUESTIONS RECEIVED REGARDING THE ABOVE MENTIONED IFB ARE ANSWERED AS FOLLOWS:

1. What is the anticipated timeline per task order?
A. Timelines will be negotiated with the contractor before task orders are issued. Timelines will be based on scope of work and the City's schedule requirements.
2. What is the anticipated frequency of issuance of task orders (will Contractor need to dedicate a crew to this contract)?
A. There is no minimum guarantee on the frequency of task order issuance. This contract will be used to supplement in-house efforts and the expectation is that the contractor will be resourced to execute the task orders issued.
3. How will the City enforce liquidated damages?
A. Liquidated damages for construction time will be assessed on a per project/task order basis should the contractor fail to complete the construction in the specified calendar days as negotiated by the City Engineer or Program Manager.
4. Will the City consider waiving the SBEDA requirements; this contract is primarily self performing?
A. No, "self-performed work done by an SBE/MBE/WBE/AABE prime contractor may be counted toward the appropriate goal provided that the SBE/MBE/WBE/AABE conducts good faith efforts to meet or exceed the contracting goals specified in the bid/proposal solicitation," per SBEDA ordinance 2007-04-12-0396. Documentation of good faith efforts done by the prime contractor must be demonstrated to reflect the lack of subcontract opportunities by responding to items 2 – 8 of the Good Faith Effort Plan.
5. Will Contractors be expected to utilize Primavera software (through the City's Project Management Portal)?
A. Yes
