## PRE-BID MEETING QUESTIONS

### **Project: City-Wide Bridge Replacement Project – W.W. White Road at Rosillo**

A pre-bid meeting was held on February 1, 2011 for the above mentioned project. The following is a list of responses to questions asked during this meeting regarding the Small Business Economic Development Advocacy (SBEDA) Program.

1. **Question:** Are Letters of Intent due for all subcontractors at the time of response?

**Response:** Yes. The City's new SBEDA Ordinance 2010-06-17-0531 states that documentation confirming a subcontractor commitment to perform the work shall be submitted at the time of response.

2. **Question:** Is an original signature required for each Letter of Intent submitted at the time of response?

**Response:** No. Because Letters of Intent may be faxed or emailed to a prospective Respondent, photocopied or faxed signatures on Letters of Intent are therefore acceptable.

3. **Question:** What is the "change of subcontractors" process under the new ordinance?

**Response:** Once awarded, a Prime Contractor must submit a Change to Utilization Plan Form through the CIMS Small Business Division notifying and requesting written approval from the Small Business Office (SBO) in advance of any change in Subcontractors. The Prime Contractor must notify Subcontractors of proposed changes prior to submitting the Change to Utilization Plan Form. The Prime Contractor must undertake Good Faith Efforts to replace certified SBEs with one or more similarly certified SBE Subcontractors. If the Prime Contractor is unable to meet the original subcontracting goals placed on a contract, the Prime Contractor must also submit a Subcontracting Waiver Request Form.

The following is a list of responses to questions asked after this meeting.

1. **Question:** Page 60 of the plans indicates that contractor is required to pay for permit fees. What are the anticipated permit requirements for the project and their respective fees?

**Response:** This is a standard COSA drainage note and the contractor should be experienced in the requirements for this type of project, so the note remains as is.

2. **Question:** What are the extents/limits of the demolition work?

**Response:** Check roadway plan & profile sheet for proposed construction limit and any removal work.

3. **Question:** Are concrete demo pay items missing?

**Response:** No. The removal existing culvert will be paid under item 496-2008 (TxDOT) "remove structure" and all other concrete demo will be paid under CoSA item 101.1 "Prep ROW"

4. **Question:** What will be the outcome if the low bidder does not meet the SBEDA requirements?

**Response:** The response will be deemed non-Responsive, as specified in City Ordinance No. 2010-06-17-0531.

5. **Question:** Must the Prime-Contractor buy-out or subcontract the SBEDA goals if he or she meets and or exceeds the prescribed goals (minority/small/disadvantaged) and the scope of the project fully fits within the Prime-Contractor's normal every-day in house operations?

**Response:** Yes. This solicitation was assigned a 15% SBE Subcontracting goal. As a result, the S/M/WBE status of a prospective Respondent is not applicable. The 15% SBE Subcontracting goal is mandatory of all Prime Contractors responding to this solicitation.
