E. Tee	12" (305mm)	10 Ea.	\$ _____ Ea.
F. Tee	18" (457mm)	20 Ea.	\$ _____ Ea.

B. ANSWERS TO QUESTIONS RECEIVED BY CITY ARE ANSWERED AS FOLLOWS:

Q1. On page 20 filter fabric is listed in 20 inches of length. Please confirm what kind of filter fabric you are wanting and if the 20 inches in length is correct. Do you mean regular 20 foot sock that goes over the corrugated pipe?

A1. Yes, please see updated price list.

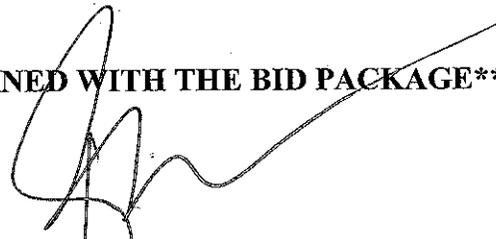

Q2. On page 21 you have 12" and 15" shown in 100 foot coils. I am familiar with 4" and 6" coils up to 100 feet but not 12" and 15" to my knowledge you can only get 12" and 15" in 20 foot joints.

A2. Items listed are requested in 20 foot lengths.

Q3. I do not have a price for bid ITEM #1 Units AO and AP for filter fabric for 30" & 36" pipe. These items are not made by the manufacture. They only make up thru 24" and not anything larger. This material is normally used on perforated pipe to keep debris out of the pipe. You are not taking any bids on 30" or 36" perforated pipe so I do not know where you would use it anyway. I would like to bid as ALL OR NONE on the rest of the material. Please let me know if this will be OK, as soon as possible because the bid date is this Friday 3-9-11.

A2. Yes, please see updated price list filter fabric for 30" & 36" pipe have been removed.

****THIS ADDENDUM IS REQUIRED TO BE RETURNED WITH THE BID PACKAGE****
