Specific requirements as to location, conditions, procedures, and associated services pertaining to a Project shall be negotiated and set out in individual Task Orders for each request, which Task Orders are incorporated into and shall become a part of this Agreement. Contractor understands and agrees that City has entered into multiple On-Call Environmental Remediation Services agreements with other Contractors and has the authority to assign Task Orders at its sole discretion. As stated in Section 2.2.2 herein, Contractor understands and agrees that City makes no minimum guarantees with regard to the amount of Services, if any, Contractor may be extended under this Agreement.

The services to be provided will be used on an as-needed basis. Work to be performed under this Contract will consist of excavation, removal, loading, transportation and disposal of impacted soils and/or water. The contaminants that have the potential to be present in the media include, but they are not limited to RCRA 11 metals, semi-volatile organic compound (SVOC), volatile organic compounds (VOCs), Total Petroleum Hydrocarbons (TPH), polycyclic aromatic hydrocarbons (PAHs), Polychlorinated biphenyls (PCBs), Asbestos Cement Pipe (AC), etc. Other work may include backfilling excavations, stockpiling, removal, characterization and disposal, and/or recycling of construction/waste debris, industrial waste, hazardous waste, toxic waste, transite pipes (asbestos cement pipe), Petroleum Storage Tanks (PSTs) and petroleum impacted waste and liquid wastes from City property. City will provide project-specific laboratory analytical data of the media to be handled for each delivery order.

4.2.2 The scope of work may include projects that require response and mobilization for the same day service (such activities may include the removal of liquid waste), or within 24 or 48 hours of notification by the City, to remove potentially impacted media from a given project. Most of the work orders will require the Contractor to mobilize to the site as indicated by City and complete the scope of work within the proposed time specified in the approved work order. Emergency response activities, such as immediate containment of spills, suppression of fires, vehicle accidents, etc., are not included within this Contract.

4.2.3 DELIVERY ORDERS

The Contractor will be verbally notified of the proposed scope of work. At such time, the selected Contractor will meet with City representative, inspect the proposed work site and discuss the specific scope of work for each proposed delivery order. The selected

Contractor will submit a written cost estimate proposal to City representative based on the Contract Unit Prices, as established in the Price Proposal Form contained herein. Only the applicable Unit Prices submitted on this form shall be considered in developing the cost estimate. City will review and approve the cost estimate prior to releasing a delivery order. Each line item identified on the Price Proposal Form shall be independent from the other line items. All costs, equipment, labor, profit and overhead shall be included in the Unit Price for each line item to complete the work. The selected Contractor shall use only those line items necessary to fulfill a particular task order. Any cost or scope of work discrepancies shall be corrected and agreed upon by City and selected Contractor prior to releasing the task order. The selected Contractor shall not proceed with the work activities until Contractor receives written documentation approving the scope of work and the total project cost.

Contractor shall employ work methods to prevent cross-contamination of media and equipment. When possible, Contractor shall excavate all soils and place the impacted soils directly into an authorized vehicle for transportation of impacted media; unless the scope of work requires reuse of clean or impacted material. If soils are to be staged, Contractor shall take precautions to prevent cross-contamination to surrounding areas. Precautions may include placing the stockpile on asphalt or lining the staging area, constructing berms around the staging area, and covering the stockpile to prevent stormwater run-on/run-off and wind dispersion.

4.2.4.2 Contractor shall implement engineering controls, such as wetting the material as necessary, to prevent dust and wind dispersion while excavating impacted soils. No visible dust or debris shall be generated during the excavation of impacted soils. Contractor shall, at City's discretionary request, provide air sampling to confirm no emissions of dust or contaminants of concern. City reserves the right to remove transporters from the site if the vehicles are not in good working condition or do not have a tarp covering the media. End dump trailers and bobtail dump trucks may be used to transport impacted soils contingent upon the site location, accessibility, and authorization by City. All transporters shall haul impacted media directly to the disposal facility or any other authorized facility and shall not spill or track impacted material in route to the authorized facility. If Contractor requires decontamination of the transporters, it shall be done at the end of the work day and at the expense of Contractor. Truck liners may be allowed, at the expense of Contractor, when handling dry materials, since liners may or may not reduce the decontamination process. Truck liners, when necessary, will be allowed when City's representative approves this line item as part of the scope of work. In some instances, Contractor might be required to transport lightly impacted or non-impacted material to a different authorized facility. The same rules previously mentioned above are applicable for this particular instance.

4.4 DECONTAMINATION

4.4.1 Contractor shall prevent cross-contamination of the impacted material to surrounding media by decontaminating all equipment, tools, personnel, etc. It shall be Contractor's responsibility to decontaminate transporting trucks and/or roll-offs containers prior to leaving the site. A dry method, such as brushing off visible debris from wheels and sides of the transporter is allowed. If a wet method is necessary to decontaminate any piece of equipment or a transporter, all decontamination waste must be containerized and properly disposed. If the material is saturated with liquids and has the potential to adhere to the transporter, Contractor shall line the transporter with a minimum of one layer of 6-mil plastic.

4.4.2 Contractor shall decontaminate all equipment that has been in contact with the impacted media. Dry methods are preferred. As necessary, Contractor shall decontaminate using high-pressure water and non-phosphate detergent. City reserves the right to verify 40-hour HAZWOPER Training certificates of each Supervisor and construction worker, to ensure compliance with OSHA 1910.120 regulations.

4.7 SAMPLING AND ANALYSIS

No sampling or analysis will be conducted on regular basis under this Contract, except for incidental sampling, as it may be necessary for specific work items. All sampling and analysis required to determine compliance with clean up standards shall be conducted by City's Consultant under a separate contract. Contractor may be required, under this contract, to assist City's consultant with access and with facilitating sample collection. Contractor may be required to collect and analyze samples as required to characterize waste for disposal, confirm petroleum storage tank removal and document field conditions. All samples shall be collected and analyzed in accordance with Local, State and Federal guidelines.

- 6.2 When Director has a Project for which he desires to procure On-Call Environmental Remediation Services, Director shall notify Contractor by issuing a Task Order Request. Each Task Order Request will include, at a minimum: name of Project, location of Project, copies of or access to Project documentation (such as specifications, environmental reports, or drawings) needed by Contractor to prepare a Proposal, Project schedule and any specific deadlines for performance of On-Call Environmental Remediation Services, and a deadline for providing Director with a Proposal based on the above.

- 6.3 Contractor shall prepare and submit to Director, within the timeline stated in a Task Order Request, a Proposal for the desired services which will include at a minimum: Scope of Services, specific staffing, an estimate of Project cost based on rates and fees agreed upon in Exhibit 1, approved Fee Schedule. The Contractor shall submit the Proposal in editable electronic format to the City. By submitting a Proposal, Contractor agrees to perform the requested service within the time stated in the Task Order Request.
- 6.4 Contractor and Director shall negotiate the Proposal. Once Contractor and Director reach mutual agreement as to scope, staffing, scheduling and cost, the City shall issue a finalized Task Order in the Portal to be executed by both parties evidencing the agreed to scope and costs.
- 6.5 The Director has the authority to execute a Task Order in the Portal on behalf of the City so long as such finalized Task Order does not exceed the total contract value and funds are provided for in the Project budget as allocated by City Council.
- 6.6 Contractor shall not proceed with services until after a finalized Task Order has been executed, Contractor receives a Notice to Proceed, and all documents required by Director in advance of commencement of work, to include proof of insurance, have been provided. Any services provided or expenses incurred, prior to receiving a Notice to Proceed or after the expiration of this Agreement on a particular finalized Task Order, will be at Contractor's sole risk and expense and may not be reimbursable by City.
- 6.7 Actual amounts billed shall not exceed the total amount as set out in the finalized Task Order.
- 6.8 Each Task Order shall be entered into the Portal and incorporated herein for all purposes. Each Task Order shall be numbered sequentially starting with number one and must reference this Agreement.
- 6.9 Contractor shall not invoice for any work associated with the Project Task Order Request process, including development of Proposal and the associated Task Order negotiation.

**ARTICLE VII.
COORDINATION WITH THE CITY**

- 7.1 Contractor shall hold periodic conferences with the Director or his representative(s) through the end of the Project. The Project shall have the full benefit of City's experience and knowledge of existing needs and facilities and be consistent with City's current policies and standards. To assist Contractor in this coordination, City shall make available for Contractor's use in planning and designing the Project all existing plans, maps, statistics, computations and other data in City's possession, relative to existing facilities and to this particular Project, at no cost to Contractor. However, any and all such information shall remain the property of City and shall be returned by Contractor upon termination or the completion of the Project or if instructed to do so by the Director.
- 7.2 The Director shall act on behalf of City, with respect to the services to be performed under this Agreement. The Director shall have complete authority to transmit instructions, receive information and interpret and define City's policies and decisions, with respect to materials, equipment, elements and systems pertinent to Contractor's services.
- 7.3 City promptly will give written notice to Contractor whenever City observes, discovers or otherwise becomes aware of any defect in Contractor's services, or any development that affects the scope or timing of Contractor's services.
- 7.4 Unless otherwise required by City, City shall furnish permit approvals obtained from all governmental authorities having jurisdiction over the Project and other such approvals and consents from others, as may be necessary, for the completion of the Project. City will notify contractor of permits obtained prior to the Contractor submitting a task proposal. Contractor will provide City reasonable assistance in connection with such

approvals and permits, such as the furnishing of data compiled by Contractor pursuant to other provisions of the Agreement, but Contractor shall not be obligated to develop additional data, prepare extensive reports or appear at hearings or the like unless compensated therefore under other provisions of this Agreement.

ARTICLE VIII. REVISIONS TO DOCUMENTS

Contractor shall make, without expense to City, such revisions to the drawings, reports or other documents, as may be required to meet the needs of City which are within the Scope of Services. After the approval of reports or other documents by City, any revisions, additions or other modifications made at City's request, which involve extra services and expenses to Contractor, only shall be requested through an additional Task Order for services.

ARTICLE IX. OWNERSHIP OF DOCUMENTS

- 9.1 All documents, including the original drawings, estimates, specifications and all other documents and data, previously owned by Contractor, shall remain the property of Contractor as instruments of service. However, it is to be understood that City shall have free access to all such information and hold the right to make and retain copies of drawings, estimates, specifications and all other documents and data. Any reuse without specific written verification or adaptation by Contractor will be at City's sole risk and without liability or legal exposure to Contractor.
- 9.2 Contractor acknowledges and agrees that City exclusively shall own any and all information in whatsoever form and character produced and/or maintained in accordance with, pursuant to or as a result of this Agreement and said information shall be used as City desires. Any and all documents, including the original drawings, estimates, specifications and all other documents and data, shall be delivered to City at no additional cost to City, upon request or termination or completion of this Agreement without restriction on future use.
- 9.3 Contractor agrees and covenants to protect any and all proprietary rights of City in any materials provided to Contractor. Such protection of proprietary rights by Contractor shall include, but not be limited to, the inclusion in any copy intended for publication of copyright mark reserving all rights to City. Additionally, any materials provided to Contractor by City shall not be released to any third party without the consent of City and shall be returned intact to City upon termination or completion of this Agreement or if instructed to do so by the Director.
- 9.4 Contractor hereby assigns all statutory and common law copyrights to any copyrightable work that in part or in whole was produced from this Agreement to City, including all equitable rights. No reports, maps, documents or other copyrightable works, produced in whole or in part by this Agreement, shall be subject of an application for copyright by Contractor. All reports, maps, project logos, drawings or other copyrightable work produced under this Agreement shall become the property of City (excluding any instrument of services, unless otherwise specified herein). Contractor shall, at its own expense, defend all suits or proceedings instituted against City and pay any award of damages or loss resulting from an injunction, against City, insofar as the same are based on any claim that materials or work provided under this Agreement constitute an infringement of any patent, trade secret, trademark, copyright or other intellectual property rights.
- 9.5 Contractor may make copies of any and all documents and items for its files. Contractor shall have no liability for changes made to or use of the drawings, specifications and other documents by other engineers, or other persons, subsequent to the completion of the Project. City requires that Contractor appropriately mark all changes or modifications on all drawings, specifications and other documents by other engineers or

other persons, including electronic copies, subsequent to the completion of the Project.

- 9.6 Copies of documents, which may be relied upon by City are limited to the printed copies (also known as hard copies) and PDF electronic versions that are sealed and signed by Contractor. Files in editable electronic media format of text, data, graphics or other types, (such as DWG or DGN) that are furnished by Contractor to City or utility only are for convenience of City or utility. Any conclusion or information obtained or derived from such electronic files will be at the user's sole risk.
- 9.7 Notwithstanding anything to the contrary contained herein, all previously owned intellectual property of Contractor, including but not limited to any computer software (object code and source code), tools, systems, equipment or other information used by Contractor or its suppliers in the course of delivering the Services hereunder, and any know-how, methodologies or processes used by Contractor to provide the services or protect deliverables to City, including without limitation, all copyrights, trademarks, patents, trade secrets and any other proprietary rights inherent therein and appurtenant thereto, shall remain the sole and exclusive property of Contractor or its suppliers.

**ARTICLE X.
TERMINATION AND/OR SUSPENSION OF SERVICES**

10.1 Right of Either Party to Terminate for Default

10.1.1 This Agreement may be terminated by either party for substantial failure by the other party to perform (through no fault of the terminating party) in accordance with the terms of this Agreement and a failure to cure as provided in this Paragraph 10.1.

10.1.2 The party not in default must issue a signed, written Notice of Termination (citing this paragraph) to the other party declaring the other party to be in default and stating the reason(s) why it is in default. Upon receipt of such written Notice of Default, the party in receipt shall have a period of ten (10) days to cure any failure to perform under this Agreement. Upon the completion of such ten-day period, commencing upon receipt of Notice of Termination, if such party has not cured any failure to perform, such termination shall become effective without further written notice.

10.2 Right of City to Terminate

10.2.1 City reserves the right to terminate this Agreement for reasons other than substantial failure by Contractor to perform by issuing a signed Notice of Termination (citing this paragraph), which shall take effect on the twentieth (20th) day following receipt of said notice and upon the scheduled completion date of the performance phase in which Contractor then is currently working, whichever effective termination date occurs first.

10.3 Right of City to Suspend Giving Rise to Right of Contractor to Terminate

10.3.1 City reserves the right to suspend this Agreement at the end of any phase for the convenience of City by issuing a signed, written Notice of Suspension (citing this paragraph) which shall outline the reasons for the suspension and the expected duration of the suspension, but such expected duration shall, in no way, guarantee what the total number of days of suspension will occur. Such suspension shall take effect immediately upon receipt of said Notice of Suspension by the Contractor.

10.3.2 Contractor hereby is given the right to terminate this Agreement in the event such suspension extends for a period in excess of one hundred twenty (120) days. Contractor may exercise this right to terminate by issuing a signed, written

Notice of Termination (citing this paragraph) to City after the expiration of one hundred twenty (120) days from the effective date of the suspension. Termination (under this paragraph) shall become effective immediately upon receipt of said written notice by City.

10.4 Procedures Contractor to follow upon Receipt of Notice of Termination

10.4.1 Upon receipt of a Notice of Termination and prior to the effective date of termination, unless the notice otherwise directs or Contractor immediately takes action to cure a failure to perform under the cure period set out hereinabove, Contractor immediately shall begin the phase-out and the discontinuance of all services in connection with the performance of this Agreement and shall proceed to promptly cancel all existing orders and contracts insofar as such orders and contracts are chargeable to this Agreement. Within thirty (30) days after receipt of such Notice of Termination (unless Contractor successfully has cured a failure to perform) Contractor shall submit a statement showing in detail the services performed under this Agreement prior to the effective date of termination. City retains the option to grant an extension to the time period for submittal of such statement.

10.4.2 Copies of all completed or partially completed specifications and all reproductions of all completed or partially completed designs, plans and exhibits prepared under this Agreement, prior to the effective date of termination, shall be delivered to City, in the form requested by City as a pre-condition to final payment. These documents shall be subject to the restrictions and conditions set forth in Article IX herein.

10.4.3 Upon the above conditions being met, City promptly shall pay Contractor that proportion of the prescribed fee which the services actually performed under this Agreement bear to the total services called for under this Agreement, less any previous payments of the fee.

10.4.4 City, as a public entity, has a duty to document the expenditure of public funds. Contractor acknowledges this duty on the part of City. To this end, Contractor understands that failure of Contractor to comply with the submittal of the statement and documents, as required above, shall constitute a waiver by Contractor of any and all rights or claims to payment for services performed under this Agreement by Contractor.

10.4.5 Failure of Contractor to comply with the submittal of the statement and documents, as required above, shall constitute a waiver by Contractor of any and all rights or claims to collect monies that Contractor otherwise may be entitled to for services performed under this Agreement.

10.5 Procedures Contractor to Follow upon Receipt of Notice of Suspension

10.5.1 Upon receipt of written Notice of Suspension, which date also shall be the effective date of the suspension, Contractor shall, unless the Notice otherwise directs, immediately begin to phase-out and discontinue all services in connection with the performance of this Agreement and shall proceed promptly to suspend all existing orders and contracts, insofar as such orders and contracts are chargeable to this Agreement.

10.5.2 Contractor shall prepare a statement showing, in detail, the services performed under this Agreement prior to the effective date of suspension.

10.5.3 Copies of all completed or partially completed designs, plans and specifications, prepared under this Agreement prior to the effective date of suspension, shall be prepared for possible delivery to City but shall be retained by Contractor until

such time as Contractor may exercise the right to terminate.

- 10.5.4 In the event that Contractor exercises the right to terminate one hundred twenty (120) days after the effective suspension date, within thirty (30) days after receipt by City of Contractor's Notice of Termination, Contractor promptly shall cancel all existing orders and contracts, insofar as such orders and contracts are chargeable to this Agreement, and shall submit the above referenced statement showing, in detail, the services performed under this Agreement prior to the effective date of suspension.
- 10.5.5 Any documents prepared in association with this Agreement shall be delivered to City as a pre-condition to final payment.
- 10.5.6 Upon the above conditions being met, City promptly shall pay Contractor that proportion of the prescribed fee which the services actually performed under this Agreement bear to the total services called for under this Agreement, less any previous payments of the fee.
- 10.5.7 City, as a public entity, has a duty to document the expenditure of public funds. Contractor acknowledges this duty on the part of the City. To this end, Contractor understands that failure of Contractor substantially to comply with the submittal of the statements and documents, as required herein, shall constitute a waiver by Contractor of any portion of the fee for which Contractor did not supply such necessary statements and/or documents.

**ARTICLE XI.
CONTRACTOR'S WARRANTY**

Contractor warrants that the services required under this Agreement will be performed with the same degree of professional skill and care that typically are exercised by similar consulting professionals performing similar services in Bexar County, Texas. Contractor further warrants that it has not employed or retained any company or person other than a bona fide employee, working solely for Contractor, to solicit or secure this Agreement, and that it has not, for the purpose of soliciting or securing this Agreement, paid or agreed to pay any company or person, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach of this warranty, City shall have the right to terminate this Agreement under the provisions of Article X herein.

**ARTICLE XII.
DISADVANTAGED BUSINESS ENTERPRISE (DBE)**

- 12.1 The City of San Antonio Capital Improvements Management Services Department (CIMS) has established a Disadvantaged Business Enterprise (DBE) Program in accordance with the Texas Department of Transportation (DOT). The objective of the DBE program is to ensure that the CIMS Department complies with 49 CFR Part 26, and to remedy past and current discrimination against disadvantaged businesses. The program ensures a "level playing field" and fosters equal opportunity in all Texas Department of Transportation and Federal Highway Association assisted contracts that include highway and street construction.
- 12.2 The policy of the CIMS Disadvantaged Business Enterprise program is:
 - 12.2.1 To ensure non-discrimination in the award and administration of DOT assisted and locally funded contracts
 - 12.2.2 To create a level playing field on which DBEs can compete fairly for DOT assisted and locally funded contracts

- 12.2.3 To ensure that the DBE program is narrowly tailored in accordance with the applicable law
- 12.2.4 To ensure that only firms that fully meet 49 CFR Part 26 eligibility standards are permitted to participate as DBEs
- 12.2.5 To help remove barriers to the participation of DBEs in DOT assisted and locally funded contracts
- 12.2.6 To assist the development of firms that can compete successfully in the marketplace outside the DBE program

12.3 DBE OBLIGATION

- 12.3.1 The CIMS Department and/or its contractor agrees to ensure that DBEs as defined in 49 CFR Part 26 have an equal opportunity to participate in the performance of contracts financed in whole or in part with federal funds provided under this agreement. In this regard the CIMS Department and its contractors shall not discriminate on the basis of race, color, national origin, gender, or disability in the award and performance of TXDOT-assisted contracts.

THE DBE GOAL FOR THIS PROJECT IS 4%

12.4 DEFINITIONS

- 12.4.1 Affiliation has the same meaning the term has in the Small Business Administration (SBA) regulations, 13 CFR part 121.

- 12.4.2 Except as otherwise provided in 13 CFR part 121, concerns are affiliates of each other when, either directly or indirectly:

- 12.4.2.1 One concern controls or has the power to control the other;

or

- 12.4.2.2 A third party or parties controls or has the power to control both;

or

- 12.4.2.3 An identity of interest between or among parties exists such that affiliation may be found.

- 12.4.3 In determining whether affiliation exists, it is necessary to consider all appropriate factors, including common ownership, common management, and contractual relationships. Affiliates must be considered together in determining whether a concern meets small business size criteria and the statutory cap on the participation of firms in the DBE Program.

- 12.4.4 Commercially Useful Function—a DBE is considered to perform a commercially useful function when it:

- 12.4.4.1 Engages in meaningful work that provides for a performance of a distinct element of the contract where that distinct element of work is worthy of the dollar amount to be awarded to the DBE; or,

- 12.4.4.2 Carries out its responsibilities by actually performing, managing, and/or

supervising the work involved.

- 12.4.5 Contract means a legally binding relationship obligating a seller to furnish supplies or services (including, but not limited to, construction and professional services) and the buyer to pay for them.
- 12.4.6 Contractor means one who participates, through a contract or subcontract (at any tier) in a DOT assisted highway, transit, or airport program.
- 12.4.7 Department or DOT means the U.S. Department of Transportation, including the Office of the Secretary, the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), and the Federal Aviation Administration (FAA).
- 12.4.8 Disadvantage business enterprise or DBE means a for-profit small business concern—
 - 12.4.8.1 That is at least 51 percent owned by one or more individuals who are both socially and economically disadvantaged or, in the case of a corporation, in which 51 percent of the stock is owned by one or more such individuals; and
 - 12.4.8.2 Whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.
- 12.4.9 Good faith efforts mean efforts to achieve a DBE goal or other requirement of this part which, by their scope, intensity, and appropriateness to the objective, can reasonably be expected to fulfill the program requirement.
- 12.4.10 Joint Venture means an association of a DBE firm and one or more other firms to carry out a single, for-profit business enterprise, for which the parties combine their property, capital, efforts, skills, and knowledge, and in which the DBE is responsible for a distinct, clearly defined portion of the work of the contract and whose share in the capital contribution, control, management, risks, and profits of the joint venture are commensurate with its ownership interest.
- 12.4.11 Personal Net Worth means the net value of the assets of an individual remaining after total liabilities are deducted. An individual's personal net worth does not include: The individual's ownership interest in an applicant or participating DBE firm; or the individual's equity in his or her primary place of residence. An individual's personal net worth includes only his or her own share of assets held jointly or as community property with the individual's spouse.
- 12.4.12 Principal place of business means the business location where the individuals who manage the firm's day-to-day operations spend most working hours and where top management's business records are kept. If the offices from which management is directed and where business records are kept are in different locations, the recipient will determine the principal place of business for DBE program purposes.

12.5 CERTIFICATION

- 12.5.1 A contractor/bidder/proposer shall submit to the City a copy of the DBE Certification Affidavit, for all DBE firms utilized or proposed to be utilized as subcontractors or suppliers in the performance of work.
- 12.5.2 The Certification Affidavit must be from a firm that has been certified by one of the five (5) certifying agencies of the Texas Unified Certification Program (TUCP). The five agencies are: Texas Department of Transportation (TxDot), North Central Texas Regional Certification Agency (NCTRCA), South Central Texas Regional Certification Agency (SCTRCA), City of Houston, and Corpus Christi Regional Transportation Authority. Each

ON-CALL ENVIRONMENTAL REMEDIATION SERVICES

certifying entity will maintain and process all DBE applications in their designated area throughout the state.

- 12.5.3 A firm must be certified on or before the bid/proposal due date in order for the firm's proposed work on the particular contract to be credited toward the DBE goal. It is not enough for a certification application to have been submitted by the deadline.

12.6 COUNTING JOINT VENTURES

- 12.6.1 Joint Ventures do not have to be fifty-one percent (51%) DBE owned in order to be counted toward the participation goal. Joint ventures that do not include any DBE firms will not count toward the goal. A joint venture with ownership of DBE partners in any percentage will be counted for that percentage equal to the distinct, clearly defined portion of the work of the contract that the DBE performs with its own forces, (provided the DBE ownership is real and substantial and the DBEs are performing a commercially useful function).
- 12.6.2 The required documentation to be submitted to the City, along with the proposal, for Joint Ventures with DBE partners shall include:
- a. The Joint Venture Agreement for the specific contract including a detailed statement of ownership.
 - b. Corporate resolutions or other documents authorizing the firms to enter into the Joint Venture.
 - c. A description of the work to be performed by all the Joint Venture Partners.
 - d. Proof of current certification status of the individual DBE venture partners.

12.7 GOOD FAITH EFFORTS

- 12.7.1 The bidder/proposer shall demonstrate, to the satisfaction of the DBE Liaison that genuine efforts have been made to achieve the DBE goal. The requirements for demonstrating "good faith efforts" are set forth as follows:
- 12.7.1.1 Written notices to DBEs contacted by the bidder/proposer for specific scopes of work identified by the bidder/proposer for subcontracting opportunities not less than five (5) business days prior to bid due date. Such notices shall include information on the plans, specifications and scope of work, including the deadline for submission of interest in teaming;
 - 12.7.1.2 Attendance at a pre-bid conference, if any, scheduled by the City to inform DBEs of subcontracting opportunities under a given solicitation.
 - 12.7.1.3 Efforts made to define additional elements of the work proposed to be performed by DBEs in order to increase the likelihood of achieving the goals.
 - 12.7.1.4 For those DBES responding affirmatively in writing to the notice required by Item 1 above,
 - (a) reasons why agreements were not reached, including written explanation for rejection of bids;
 - (b) if additional elements of work have been identified by the bidder/proposer as available for subcontracting, the bidder/proposer shall contact the CIMS Department DBE Liaison to ascertain the availability of DBE firms in those areas.
- 12.7.2 Efforts to assist DBE contractors with bonding, insurance, and financing, where appropriate.
- 12.7.3 Seeking the assistance of the CIMS DBE Liaison in contacting DBEs.
- 12.7.4 A bidder/proposer shall commit to the minimum percentage of DBE utilization as submitted with its bid/proposal on this contract. During the term of this contract, any unjustified failure to comply

with the level of DBE participation identified in the bid/proposal shall be considered a material breach of contract.

12.7.5 If the bidder/proposer is a certified DBE and the DBE bidder/proposer intends to perform a portion of the work with its own work force, the DBE bidder/proposer must identify the work specifically by type and dollar value and must perform the work indicated with its own work forces in order to have that work counted toward the goal. (Even though the bidder/proposer is a certified DBE does not relieve the DBE bidder/proposer of the responsibility to make good faith efforts.)

12.7.6 In addition, all bidders/proposers will be required to submit the following information with the bid:

12.7.6.1 The names and addresses of DBE firms that will participate in the contract;

12.7.6.2 A description of the work that each DBE will perform

12.7.6.3 The dollar amount of the participation of each DBE firm participating

12.7.6.4 Written documentation of the bidder's/proposer's commitment to use a DBE subcontractor whose participation it submits to meet a contract goal;

12.7.6.4 Written confirmation from the DBE that it is participating in the contract as provided in the bidder's/proposer's commitment.

12.8 EVALUATION OF GOOD FAITH EFFORTS

12.8.1 The good faith effort of a bidder/proposer will be evaluated by the DBE Liaison to determine whether the efforts to obtain DBE participation were those that a firm seeking subcontractors would take in the normal course of doing business; whether the steps taken had a reasonable prospect of success; and whether based upon the size, scope and complexity of the subcontract, there were qualified DBE firms available and willing to accept the contract at a competitive price.

12.8.2 The following is a list of types of actions, which the DBE Liaison may consider as part of the bidder's/proposer's good faith efforts to obtain DBE participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.

12.9 Criteria used to evaluate "Good Faith Efforts" are as follows:

1. Soliciting through all reasonable and available means (e.g. attendance at pre-proposal conferences, advertising and/or written notices) the interest of certified DBEs who have the capability to perform the work of the contract. The bidder/proposer must solicit this interest within sufficient time to allow the DBEs to respond to the solicitation. The bidder/proposer must determine with certainty if the DBEs are interested by taking appropriate steps to follow up initial solicitations.
2. Selecting portions of the work to be performed by DBEs in order to increase the likelihood that the DBE goal will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate DBE participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces.
3. Providing interested DBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation.
4. (a) Negotiating in good faith with interested DBEs. It is the bidder's/proposer's responsibility to make a portion of the work available to DBE subcontractors and/or suppliers and to select those portions of the work or material needs consistent with the available DBE subcontractors and/or suppliers, so as to facilitate DBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of DBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for DBEs to perform the work.

(b) A bidder/proposer using good business judgment would consider a number of factors in negotiating with subcontractors, including DBE subcontractors, and would take a firm's price

and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using DBEs is not in itself sufficient reason for a prime contractor failure to meet the contract DBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the prime contractor of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from DBEs if the price difference is excessive or unreasonable.

5. Not rejecting DBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of bids in the contractor's efforts to meet the project goal.
6. Making efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance.
7. Making efforts to assist interested DBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.
8. Effectively using the services of available minority/women community organizations; minority/women contractors' groups; local, state, and Federal minority/women business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of DBEs.
9. In determining whether a bidder/proposer has made good faith efforts, the DBE Liaison may take into account the performance of other bidders in meeting the contract. For example, when the apparent successful bidder fails to meet the contract goal, but others meet it, the DBE Liaison may reasonably raise the question of whether, with additional reasonable efforts, the apparent successful bidder could have met the goal. If the apparent successful bidder fails to meet the goal, but meets or exceeds the average DBE participation obtained by other bidders, the DBE Liaison may view this, in conjunction with other factors, as evidence of the apparent successful bidder having made good faith efforts.

12.10 RECONSIDERATION MECHANISM

12.10.1 The CIMS Department DBE Liaison will evaluate the "good faith efforts" of a firm. If after reviewing the good faith efforts submitted by Bidder/Proposer, the DBE Liaison determines that the Bidder/Proposer has failed to adequately document its good faith efforts, then the Bidder/Proposer shall have the opportunity to provide written documentation or argument, to the CIMS Director, concerning the issue of whether it met the goal or made adequate good faith efforts to do so. The Bidder/Proposer will have the opportunity to meet in person with the CIMS Director to discuss the issue of whether it met the goal or made adequate good faith efforts to do so. The CIMS Director will provide a written decision on reconsideration explaining the basis of his decision. In cases of dispute, the final decision in determining whether Good Faith Efforts have been made rests with the CIMS Director.

12.10.2 The CIMS Director may determine that the efforts of the Bidder/Proposer substantially comply with the purpose of this program and such determination is in the best interest of the DBE Program and the City. However, if the CIMS Director determines that the Bidder/Proposer did not make good faith efforts to meet the goal, the decision is not administratively appealable to the Texas Department of Transportation

12.11 COMPLIANCE

12.11.1 If a bidder/proposer is awarded a contract:

12.11.1.1 The bidder/proposer must not terminate for convenience a DBE subcontractor (or an approved substitute DBE firm) and then perform the work of the terminated

subcontract with its own forces or those of an affiliate, without the City's prior written consent. When a DBE subcontractor is terminated, or fails to complete its work on the contract for any reason, the bidder/proposer must notify the City immediately of the DBE's inability or unwillingness to perform and provide reasonable documentation.

12.11.1.2 The Bidder/Proposer will be required to make good faith efforts to find another DBE to perform at least the same amount of work under the contract as the DBE that was terminated, to the extent needed to meet the contract goal the City has established for this contract. The Bidder/Proposer will be required to obtain the DBE Liaison's prior approval of the substitute DBE, through the submittal of Change of Subcontractors/Suppliers and to provide copies of new or amended subcontracts, or documentation of good faith efforts. If the Bidder/Proposer fails or refuses to comply in the time specified, our office may issue a termination for default.

12.12 PROMPT PAYMENT

12.12.1 The Prime Contractor agrees to pay each subcontractor under this contract for satisfactory performance of its subcontract no later than 10 days from the date that the prime contractor has been paid by the City for invoices submitted for performance of subcontractor's work. A delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of the City of San Antonio. This clause applies to both DBE and non-DBE subcontractors.

ARTICLE XIII. ASSIGNMENT OR TRANSFER OF INTEREST

Contractor shall not assign or transfer Contractor's interest in this Agreement without the written consent of City.

ARTICLE XIV. INSURANCE REQUIREMENTS

- 14.1 Prior to the commencement of any work under this Agreement, Contractor shall furnish copies of all required endorsements and a completed Certificate(s) of Insurance to City's Capital Improvements Management Services (CIMS)/Contract Services, which clearly shall be labeled "On-Call Environmental Remediation Services" in the Description of Operations block of the Certificate. The original Certificate(s) shall be completed by an agent and signed by a person authorized by that insurer to bind coverage on its behalf. City will not accept Memorandum of Insurance or Binders as proof of insurance.
