Stinson Municipal Airport Project & Design Management 2009 Special Improvements Bond Program City of San Antonio

PROJECT SHEET #1: STINSON MUNICIPAL AIRPORT PROJECT AND DESIGN MANAGEMENT

PROJECT DESCRIPTION:	Under contract with the City of San Antonio, Walters & Associates (W&A) provided project management and design management services for the Stinson Municipal Airport (SSF). Program management services included construction management, construction inspection, project controls, master scheduling, estimating, site assessments, document control, meeting facilitation, and public relations.		
PROJECT DETAILS AND ROLE OF SUBMITTING FIRM:	<ul style="list-style-type: none"> ◆ The City of San Antonio's Aviation Department managed the rehabilitation of the Stinson Municipal Airport (SSF). The City contracted the program management of the design and construction efforts. W&A provided inspection and administrative services for various contracts as part of the Program Management Team (PMT). At the peak of construction, the PMT employed nearly 70 professionals in management, administration, inspection, scheduling, estimating, quality control, and testing. The PMT managed more than 8 general contracts representing more than 100 contractors and suppliers and nearly 900 workers. ◆ W&A provided services associated with the airport's interior, concourse, terminal, and the central plant as well as exterior roadway projects like Airport Avenue which is the main corridor for all ground transportation to SSF. The concourse is 1500 feet long, 126 feet wide, and contains 2 passenger jet ways. The Central Plant Facility at SSF is the source of all heating and cooling from the terminal and parking garage to the main concourse with enough capacity to handle the addition of a future concourse. W&A provided quality assurance engineering and inspection for the construction of the one mile stretch of limited access interstate highway for Airport Avenue as well as overseeing the construction of all excavation and embankment, drainage structures, paving, striping, signage, 2 post tensioned and one pre-stressed bridge. W&A staff delivered program administration and inspection services and staffed deputy resident engineers, office engineers, contract administration, inspection staff, and clerical staff on-site. 		
YEAR OF PROJECT:	2009-2012	ORIG. CONSTRUCTION AMOUNT:	\$81.2 million
