I. BACKGROUND/OVERVIEW

The City of San Antonio (hereafter referred to as “the City”), Aviation Department and Capital Improvements Management Services (hereafter referred to as “CIMS”), seeks Statements of Qualifications (hereafter referred to as “SOQs”) from general contractors (hereafter referred to as “Respondents”) interested in providing pre-construction and construction phase services by way of a Construction Manager at Risk (hereafter referred to as “CMR”) delivery method for a Consolidated Rental Car Facility/Other Landside Facilities (hereafter referred to as “Airport Transit Center”) that will provide ground/air transportation interface and include consolidated rental car facilities, public parking and related infrastructure for the San Antonio International Airport (hereafter referred to as “the Airport”). The selected Respondent shall be required to demonstrate the ability and resources necessary to perform the scope of services requested.

The Airport Transit Center will include rental car customer counters, offices and customer support areas, ready/return areas with parking for approximately 2,600 spaces, a quick turn-around area (hereafter referred to as “QTA”) to include light vehicle maintenance service, wash and fuel facilities, a fuel transfer facility that will accommodate fuel storage tanks, roughly 200 public parking spaces on the current site being displaced by the proposed facility and other amenities. The program may include roadway access improvements and wayfinding associated with Airport Transit Center.

The Airport Transit Center shall accommodate at least nine (9) rental car brands (hereafter referred to as “RACs”) that currently operate from counters located on the baggage claim level of the Airport’s Terminal A. In addition, several RACs not currently serving the Airport have expressed interest in serving the Airport in the future. The Airport Transit Center is proposed to be located immediately across the terminal roadway system from Terminals A and B.

The design of the Airport Transit Center is scheduled to begin in early 2013. The design will be divided into two phases. Phase One will define the scope, prepare preliminary documents, devise concepts and produce schematic drawings representing the various features of the Airport Transit Center. Phase Two will commence after the City and RACs have agreed on a Phase One recommendation and will proceed through 100 percent design and the development of Contract Documents. The selected Respondent will join the Project during Phase One design and provide design (pre-construction) related services through the completion of the design efforts.

Construction may include multiple packages to include, but not be limited to, demolition of an existing central utility plant (hereafter referred to as the “CUP”), infrastructure improvement work involving potential rerouting of various utility lines, site development, and the building of the Airport Transit Center structure.

Construction may require phasing in order to maintain the Airport operations and allow airport customers’ ongoing use of existing parking entry, roadway circulation and exit plaza facilities. The Project team, to include the City, selected Respondent and design team, and RAC Project Representative will determine the final phasing schedule. The Project will need to be coordinated with the Aviation Department, CIMS and other entities involved with delivery of this work. Construction for the Airport Transit Center is expected to be completed for occupancy by early 2017.

Purpose and Intent

It is the intent of the City to develop an Airport Transit Center with amenities consistent with current standards in place at other U.S. airports. The selected Respondent, in conjunction with the design team, will act in the best interest of the City in executing this project.

After performing a full review, the CIMS Director will notify the respondent in writing of his determination.
17. Debriefings: In an effort to improve solicitation responses, CIMS is making available on its web site a "Solicitation Response Tip List" that includes the top common items that "make or break" submittals. Providing this information prior to the due date of the submittal provides Respondents with an opportunity to develop a better response for each solicitation. As a result of this up-front effort, each Respondent is entitled to a one (1) debriefing per calendar year after the San Antonio City Council has made an award if:
 - (a) they are not the selected respondent; and

Respondent understands and agrees that the following provisions shall be requirements of this solicitation and the resulting contract, if awarded, and by submitting its Response, Respondent commits to comply with these requirements.

Waiver Request - A Respondent may request, for good cause, a full or partial Waiver of a **specified subcontracting goal** included in this solicitation by submitting the *Respondent Subcontracting Waiver Request* form (available at <http://www.sanantonio.gov/edd/SmallBusiness>) with its solicitation response. The Respondent's Waiver request must fully document Sub-Contractor unavailability despite the Respondent's good faith efforts to comply with the goal. Such documentation shall include all good faith efforts made by Respondent including, but not limited to, which Sub-Contractors were contacted (with phone numbers, e-mail addresses and mailing addresses, as applicable) and the method of contact. **Late Waiver requests will not be considered.**

Exception Request - A Respondent may, for good cause, request an Exception to the application of the SBEDA Program if the Respondent submits the *Exception to SBEDA Program Requirements Request* form (available at <http://www.sanantonio.gov/edd/SmallBusiness>) with its solicitation response. The Respondent's Exception request must fully document why: (1) the value of the contract is below the \$50,000 threshold for application of the SBEDA Program; or (2) no commercially-useful subcontracting opportunities exist within the contract scope of work; or (3) the type of contract is outside of the scope of the SBEDA Ordinance. **Late Exception Requests will not be considered.**

B. SBEDA Program

The CITY has adopted a Small Business Economic Development Advocacy Ordinance (Ordinance No. 2010-06-17-0531 and as amended, also referred to as "SBEDA" or "the SBEDA Program"), which is posted on the City's Economic Development (EDD) website page and is also available in hard copy form upon request to the CITY. The SBEDA Ordinance Compliance Provisions contained in this section of the Agreement are governed by the terms of this Ordinance, as well as by the terms of the SBEDA Ordinance Policy & Procedure Manual established by the CITY pursuant to this Ordinance, and any subsequent amendments to this referenced SBEDA Ordinance and SBEDA Policy & Procedure Manual that are effective as of the date of the execution of this Agreement. Unless defined in a contrary manner herein, terms used in this section of the Agreement shall be subject to the same expanded definitions and meanings as given those terms in the SBEDA Ordinance and as further interpreted in the SBEDA Policy & Procedure Manual.

C. Definitions

Affirmative Procurement Initiatives (API) – Refers to various Small Business Enterprise, Minority Business Enterprise, and/or Women Business Enterprise ("S/M/WBE") Program tools and Solicitation Incentives that are used to encourage greater Prime and subcontract participation by S/M/WBE firms, including bonding assistance, evaluation preferences, subcontracting goals and joint venture incentives. (For full descriptions of these and other S/M/WBE program tools, see Section III. D. of Attachment A to the SBEDA Ordinance.)

Centralized Vendor Registration System (CVR) – a mandatory electronic system wherein the City requires all prospective Respondents and SubContractors that are ready, willing and able to sell goods or services to the City to register. The CVR system assigns a unique identifier to each registrant that is then required for the purpose of submitting solicitation responses and invoices, and for receiving payments from the City. The CVR-assigned identifiers are also used by the Goal Setting Committee for measuring relative availability and tracking utilization of SBE and M/WBE firms by Industry or commodity codes, and for establishing Annual Aspirational Goals and Contract-by-Contract Subcontracting Goals.

Certification or “Certified” – the process by which the Small Business Office (SBO) staff determines a firm to be a bona-fide small, minority-, women-owned, or emerging small business enterprise. Emerging Small Business Enterprises (ESBEs) are automatically eligible for Certification as SBEs. Any firm may apply for multiple Certifications that cover each and every status category (e.g., SBE, ESBE, MBE, or WBE) for which it is able to satisfy eligibility standards. The SBO staff may contract these services to a regional Certification agency or other entity. For purposes of Certification, the City accepts any firm that is certified by local government entities and other organizations identified herein that have adopted Certification standards and procedures similar to those followed by the SBO, provided the prospective firm satisfies the eligibility requirements set forth in this Ordinance in Section III.E.6 of Attachment A.

Commercially Useful Function – an S/M/WBE firm performs a Commercially Useful Function when it is responsible for execution of a distinct element of the work of the contract and is carrying out its responsibilities by actually performing, staffing, managing and supervising the work involved. To perform a Commercially Useful Function, the S/M/WBE firm must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quantity and quality, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether an S/M/WBE firm is performing a Commercially Useful Function, an evaluation must be performed of the amount of work subcontracted, normal industry practices, whether the amount the S/M/WBE firm is to be paid under the contract is commensurate with the work it is actually performing and the S/M/WBE credit claimed for its performance of the work, and other relevant factors. Specifically, an S/M/WBE firm does not perform a Commercially Useful Function if its role is limited to that of an extra participant in a transaction, contract or project through which funds are passed in order to obtain the appearance of meaningful and useful S/M/WBE participation, when in similar transactions in which S/M/WBE firms do not participate, there is no such role performed. The use of S/M/WBE firms by CONTRACTOR to perform such “pass-through” or “conduit” functions that are not commercially useful shall be viewed by the CITY as fraudulent if CONTRACTOR attempts to obtain credit for such S/M/WBE participation towards the satisfaction of S/M/WBE participation goals or other API participation requirements. As such, under such circumstances where a commercially useful function is not actually performed by the S/M/WBE firm, the CONTRACTOR shall not be given credit for the participation of its S/M/WBE sub-Contractor or joint venture partner towards attainment of S/M/WBE utilization goals, and the CONTRACTOR and S/M/WBE firm may be subject to sanctions and penalties in accordance with the SBEDA Ordinance.

Evaluation Preference – an API that may be applied by the Goal Setting Committee (“GSC”) to Construction, Architectural & Engineering, Professional Services, Other Services, and Goods and Supplies contracts that are to be awarded on a basis that includes factors other than lowest price, and wherein responses that are submitted to the City by S/M/WBE firms may be awarded additional Points in the evaluation process in the scoring and ranking of their proposals against those submitted by other prime CONTRACTORS or Respondents.

Good Faith Efforts – documentation of the CONTRACTOR’s or Respondent’s intent to comply with S/M/WBE Program Goals and procedures including, but not limited to, the following: (1) documentation within a solicitation response reflecting the Respondent’s commitment to comply with SBE or M/WBE Program Goals as established by the GSC for a particular contract; or (2) documentation of efforts made toward achieving the SBE or M/WBE Program Goals (e.g., timely advertisements in appropriate trade publications and publications of wide general circulation; timely posting of SBE or M/WBE subcontract opportunities on the City of San Antonio website; solicitations of bids/proposals/qualification statements from all qualified SBE or M/WBE firms listed in the Small Business Office’s directory of certified SBE or M/WBE firms; correspondence from qualified SBE or M/WBE firms documenting their unavailability to perform SBE or M/WBE contracts; documentation of efforts to subdivide work into smaller quantities for subcontracting purposes to enhance opportunities for SBE or M/WBE firms; documentation of a Prime Contractor’s posting of a bond covering the work of SBE or M/WBE SubContractors; documentation of efforts to assist SBE or M/WBE firms with obtaining financing, bonding or insurance required by the Respondent; and documentation of consultations with trade associations and Contractors that represent the interests of SBE and/or M/WBEs in order to identify qualified and available SBE or M/WBE Sub-Contractors.) The appropriate form and content of CONTRACTOR’s Good Faith Efforts documentation shall be in accordance with the SBEDA Ordinance as interpreted in the SBEDA Policy & Procedure Manual.
