

Q1. Is COSA looking for sub-contractors to bid on the project or only prime contractors?

A1. Only prime contractor.

Q2. Are multiple signed and sealed plans required for overhead protection - one for pedestrians during the entirety of the project and one for debris nets during critical closures?

A2. No, one plan can be submitted for all overhead protection. The requirements for overhead protection are outlined in Special Specification 3001.

Q3. Are there "Buy America" steel requirements?

A3. A clarification will be posted to the COSA website concerning the requirements, if any.
