More detail of the proposed revenue adjustments for FY 2009 is attached.

BACKGROUND INFORMATION:

City staff annually reviews existing revenue sources and service delivery processes in order to identify both new sources of revenue and potential changes to existing fees, fines and rates. The policy direction for the FY 2009 budget process regarding revenue adjustments focused on revenue changes that allow cost recovery from those who benefit from service (User Fees) as well as service areas that had not been adjusted in recent past. The concept of cost recovery is to recover some or all of the costs associated with providing city services and programs at varying levels depending on factors such as the nature of the service provided, the population served, and the

intended impact to the community.

In order to mitigate the need for significant rate adjustments in any revenue source, incremental inflationary factors that increase service delivery costs on an annual basis are also considered as the basis for proposing revenue rate adjustments.

A detailed presentation on Proposed Fees/Rate Adjustments included in the FY 2009 Proposed Budget was given to City Council during a Budget Worksession held on Wednesday, September 3rd. The presentation included a description of all revenue adjustments included in the Budget. City Council was also provided with a detailed report on each of the recommended adjusted revenues.

During the presentation, City Council had questions regarding select revenues. Most questions were addressed by City Staff during the worksession, however, some questions required follow-up responses. A list of questions asked as well as responses can be found below.

1) Annual Security System Renewals – City Council inquired about the percentage of residential and commercial security system permits that are renewed. According to the Department, approximately 80% of alarm permits are renewed through the SAPD Alarms Unit annually.

2) License Fees for Security Alarm Companies - The City Council inquired whether security alarm companies are charged a license fee by the City. All security alarm companies and their employees are required to obtain a license from the State of Texas (Occupations Code, 1702.062). State law prohibits municipalities from issuing licenses for the alarm customer and the employee.

3) Revised False Alarm Fee Schedule – City Council requested the frequency of false alarms originating from residential and commercial security systems as well as the fee schedule the City uses to recover the costs of attending to false alarms. Additionally, the City Council requested a staff professional recommendation for increasing the penalty for false alarms. From October 1, 2007 through June 30, 2008, the Police Department responded to 62,553 burglar alarms of which 3,203 (5.1%) were valid alarms. Of the 59,350 false alarms, residential and commercial alarms account for approximately 43% each, and 14% are other alarm account types.

Residential Alarms – False Alarm Fee Penalty

At the present time, the San Antonio Police Department is charging the maximum fees allowed by State Law for residential burglary false alarms. The State Law regulating this fee is the Local Government Code, Article IV, 214.197. Currently, for residential customers, the first three false alarm events are free.

Commercial Alarms

Fees on False Alarm Robbery / Panic Alarms for commercial accounts are not regulated by State Law. The Police Department's recommendation is to increase these fees based on City Council input. The fee recommendation is listed below.

Commercial Robbery / Panic Alarms (False Alarms)	Current Fees	Proposed Fees
Call No. 1 (Warning)	\$0	\$0
Call No. 2	\$100.00	\$150.00
Call No. 3	\$100.00	\$150.00
Call No. 4 or More	\$250.00	\$300.00

The incremental increase for these fee adjustments amounts to \$54,333.00 in

FY 2009. This revenue is not factored into the Proposed Budget Presented by the City Manager on August 14, 2008.

4) Laptop Late Return Rentals – City Council inquired about information on the late fees for laptop rental returns. The Library is currently piloting the program and is looking into methods for providing users with notifications to indicate when the allotted time is nearing expiration. The Library is also looking into options for prorating the late laptop return fee or not assessing the fee altogether.

Revenue questions addressed during the September 3rd Worksession by City Staff not requiring follow-up included questions on taxicab permit fees, tag charges for animal collars, tree warranty fees, and backflow prevention fees.

ISSUE:

This item presents for City Council consideration ordinances establishing new fees, amending existing fees, clarifying the application of existing fees, and eliminating existing fees for various City funds and departments.

General Fund

The FY 2009 Proposed Budget includes increases to several existing fees and creates new fees and charges for service. These new and adjusted revenue items for the General Fund total \$1.65 million. As mentioned earlier, the policy direction for the FY 2009 budget process regarding revenue enhancements focused on revenue changes that impact those who benefit from service (User Fees) as well as service areas that had not been adjusted in recent past. There are seven categories of cost recovery and user fees that were evaluated in the General Fund: Rental of Downtown Facilities, Parking Permit/Street Sign Fees, Health Inspection/Permits, Recreation and Culture Participation/Facility Rental Fees, Vehicle Permit Fees, Fire/EMS Fees, and Security System Fees/Permits. The following table shows the proposed revenue adjustments and their respective dollar values.

Revenue Changes by Cost Recovery Category

For a detailed listing of all recommended fees/rate adjustments for Other Funds, please see attached.

ALTERNATIVES:

The FY 2009 Proposed Budget accounts for the estimated additional revenues to be generated from the proposed revenue changes included herein. Should any of these proposed revenue adjustments not be approved by the City Council, City staff will need to determine if the exclusion of the anticipated revenue will cause a negative impact to the Budget. If so, one or both of the following actions must be taken by City Council:

1. Reduce adopted expenditure levels
2. Increase other sources of revenue

FISCAL IMPACT:

The individual revenue adjustment items included herein propose to increase revenues within various City funds as outlined in the following table:

FY 2009 PROPOSED BUDGET REVENUE ADJUSTMENTS
