The Zoning Commission has recommended that this request of change of zone be approved by the City Council.

City Manager Louis J. Fox reported to the Council on a meeting he and Councilwoman Vera attended with school officials from the various local districts in which the City's intent to cease funding the school crossing guard program had been discussed. Mr. Fox stated that the officials had requested that City Council reconsider the deletion of this program. He stated that they had pledged to support additional taxes to pay for this critical item, if necessary. He added that they would encourage citizens to not jeopardize the program by participating in the roll-back effort.

Ms. Vera stated that all entities expressed their concern with the safety of our children. She added that school officials noted that they had already passed their budgets for the coming year and it would be impossible to fund this program at their individual schools at this time. They also spoke to the value of a centralized coordinated program and the increased costs that the citizens would have to incur if the program was taken up for administration by the individual school districts. She added that the meeting resulted in a better understanding by the City of the districts' position on this issue as well as an understanding on our part of how critical the service is to the districts. She further stated her conviction that it is an important public safety issue and one that should be maintained and provided for the children of San Antonio.

Ms. Berriozabal noted that she was opposed to making cuts to the school crossing guard program.

Mrs. Dutmer suggested that the districts be put on notice that the safety of our children is everyone's responsibility.

(At this point, Mayor Cockrell returned to the meeting to preside.)

In response to a question by Mr. Martinez, Mr. Fox stated that the school superintendents were adamant that school crossing guards were a City service.

Mr. Martinez stated his opposition to passing the costs of this program to the school districts. He noted that the poorer school districts would have a disproportionate cost to bear to finance the program.

Mr. Labatt expressed concern with inequities in the way the school crossing guard program is being handled. He noted that some school districts manage without school crossing guards.

Mayor Cockrell noted that the school superintendents argued the fact that they had already set their budgets for their coming year and set

their tax rates.

Mayor Cockrell recommended that in order to assist the Council to develop a long-range policy, the staff should do a study on how this type of service is handled in other communities and cities.

Ms. Vera stated her opinion on this issue and her perception on the City's responsibility.

Mrs. Dutmer took exception to the school superintendents' stand that this issue is solely the City's responsibility.

Mr. Wolff spoke in favor of the City continuing to run and coordinate the program.
