He spoke of the efforts to utilize the Willow Springs Golf Course as an amenity to leverage development in the area. He referenced the Sutton Homes Redevelopment Project and the Walters Street Charette, noting that Walters Street is the primary entrance to Fort Sam Houston. Lastly, he stated that they would partner with the owner of the Mega Warehouse and identify possible tenants to utilize the building.

He noted that there had been concern expressed by small business owners to participate in the reinvestment of the eastside. Mr. James stated that the small businesses owners he spoke with were in need of funding for items such as

equipment and remediation. He noted that they were working on educating small business owners of the assistance programs available and connecting them with the appropriate agencies. Councilmember Taylor thanked everyone involved in the Eastside Initiatives and recognized Mayor Castro and the Councilmembers for their support. She stated that the meetings were well-designed and attended and recognized city staff for their work. She noted that it was important to create an environment that encourages investment and to leverage the investment at Fort Sam Houston into the neighborhoods. He reported that an additional \$6 million had been received to fund improvements to the Alamodome in preparation for the 2008 Men's Final Four. He mentioned that new rules had been established as amended by Senate Bill 1515 effective September 1, 2009 in which conventions are now eligible for participation. He explained that an event was eligible if a site selection organization selects a site in Texas for the event; if the event will not be held more than once in a calendar year in Texas; and if the site selection is performed through a competitive selection process.

Mr. Sawaya reported that the reimbursement payments could be used to finance costs related to applying or bidding for selection and for preparations necessary for conducting an event in this state including construction or renovation of facilities. He stated that a request for participation and determination must be submitted not earlier than one year and not later than three months before the event start date. He noted that an economic impact study must be conducted and contain information on direct expenditures and impact to the municipality hosting the event. He added that municipalities were required to submit an amount up to or equal to the calculated local share no later than 90 days after the event and that all construction or renovations were required to be completed prior to hosting the event.

Mr. Sawaya spoke of the reimbursement process, noting that 86% was funded by the State and 14% was funded by the City. He outlined the various funding sources that staff had identified to utilize for the program. This included the Improvement and Contingency Fund that was reserved for the Six-Year Capital Improvement Plan and the Hotel Occupancy Tax Facilities Fund. He noted that the funds would be replaced after reimbursement from the State.

Mr. Sawaya noted that staff had identified 18 events and conventions that met the qualifications to seek reimbursement of hosting obligations with an estimated rebate totaling \$13 million. He spoke of current convention center projects including carpet replacement, public seating area, and restroom renovations and the financial benefits that would relieve \$9-10 million of the \$16 million six-year future capital needs. He reported that to date the city received \$732,000 for the Rock 'N Roll Marathon, and \$691,000 for the Notre Dame Football Game. He added that the Texas Comptroller's Office had evaluated 12 events and authorized over \$10 million for San Antonio.

Mayor Castro thanked staff for their work and stated that he was pleased with the opportunity to leverage funds. Councilmember Chan asked of the requirements for reimbursement. Mr. Sawaya replied that the improvements made to the facility were not required to be completed specifically for an event but must be completed prior to the start of the event. Councilmember Chan asked if the

reimbursed funds were generated by the event. Mr. Sawaya replied that the economic impact analysis took into account the amount of money that would be generated by the event. Councilmember Chan asked if there was a limit to requests for reimbursement. Mr. Sawaya reported that there were no limits as long as the events met the requirements for reimbursement.

Councilmember Rodriguez commended staff for their work and stated that it was a great way to leverage funds. He recognized Marc Solis, the newly hired General Manager for the Alamodome, noting that he had worked with Mr. Solis as an intern. He asked why the Women's Final Four was not included in the list for reimbursement for 2010. Mr. Sawaya stated that it had been previously included in the Sporting Events category.
