ZONING CHANGE REQUESTED:

From "A" and Temporary "R-1" Single Family Residence District to "R-3" Multiple Family Residence District and "B-2" and "B-3" Business Districts

ZONING COMMISSION PUBLIC HEARING ON MARCH 7, 1973:

Information Presented by Applicant:

Mr. Herbert Karren, 4335 N.W. Loop 410, introduced Mr. Ralph Bender, who made the presentation for the proposed properties.

Mr. Ralph Bender, Planner and Consultant, stated to the Commission that his clients have recently acquired subject property and the property will be developed into a planned unit development type project. They have a proposed financial institution and a major shopping center commitment for the property but do not have definite commitments for the rest of the property. He further stated that they have met with school officials and their only concern was that there be no alcoholic consumption near this area and they are willing to comply with this condition. What they proposed along West Avenue will not be detrimental to the single family homes on West Avenue.

IN OPPOSITION

1. Mr. Robert Pior, 11643 Persuasion, was not sure that he was in opposition but wished to know what proponents are proposing to construct on property along West Avenue in front of Silver Sands.
 2. Mr. James S. Boren, 4647 Persuasion, stated that the noise that will be created will be detrimental to the single family homes. He requested a postponement in order for the home owners and proponents to meet and consider the proposal.
- Mr. Ralph Bender, proponent, stated that upon hearing the balance of the opposition, they would prefer not to postpone the matter and hear the case.
3. Col. John F. Graf, 11807 Persuasion, stated that if the property were zoned to "B-2" and "B-3, they would get the type of development that they do not want in the area.
 4. Col. Betty Landen, 11805 Persuasion, stated that the proposed would create much unwanted noise and it will increase the burglary quota in this area and this will jeopardize their security.

MOTION made by Mr. Hughes and seconded by Mr. Walker to pass up the matter of postponement and hear the case. All those present voting in the affirmative.

REBUTTAL

Mr. Bender stated that his clients have been in development business for a considerable time in San Antonio and they specialize in this kind of development. The development program for this 140 acres will take between six or seven years to complete. It is the very most expensive property from the 2000 acres of an overall master plan to be developed in the next ten or twelve years. Mr. Bender further stated that this area is going to explode in terms of its commercial potential. He stated that everything that can be done has been done with respect to coordinating with school, traffic and single family development in the area.

STAFF RECOMMENDATIONS:Discussion:

Properties in question are located at the intersection of two major arterials and the proposed development provides for transition between the proposed "B-3" zoning and future residential to the north. Applicant's proposal is to construct a collector loop street through both properties between Blanco Road and West Avenue to serve the business and residential areas within the development

Recommendation:

Approval
Proper platting

Traffic and Transportation Department Recommendations:

Collector street system is needed to provide proper access.

Results of Notices Received Before Hearing:

There were ninety-three notices mailed to the surrounding property owners, fifteen notices returned in opposition and eleven returned in favor.

COMMISSION ACTION:

By a vote of seven in favor and two being absent, the Commission recommended approval of this request.

Reasons for Action:

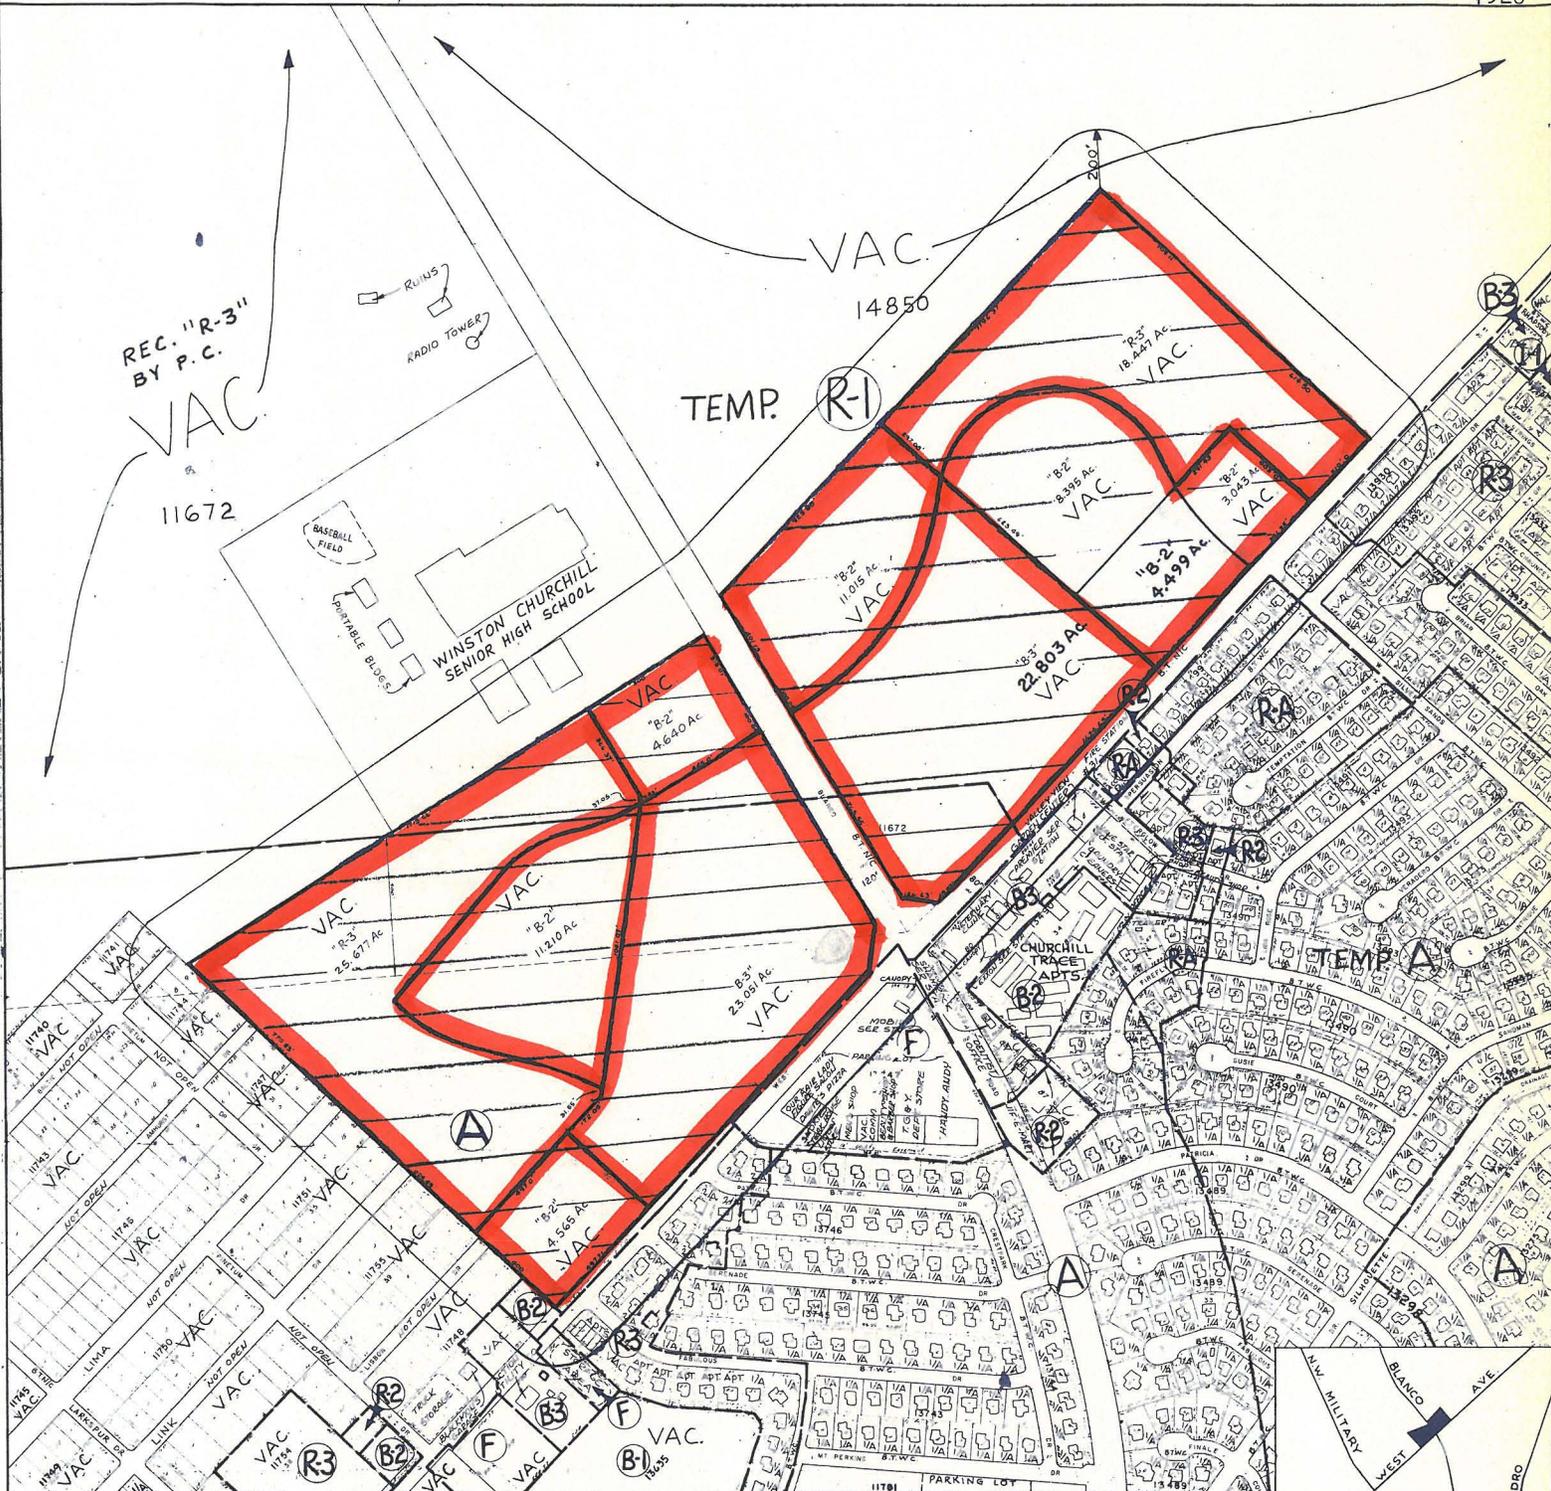

- (1) Property is located on the east and west sides of Blanco Road to the north of West Avenue.
- (2) Property in question would form, under the centers concept, the logical position of major commercial activity which has been set out in the master planning.
- (3) The plans of the area called for multi-family buffering around the commercial against possible single family or other residential areas adjacent to this property.
- (4) While there was considerable opposition, it appears that this would be good land planning.
- (5) The school which is adjacent, north of this property, has indicated through the applicants that they have received satisfactory assurance as to the safety of the students.

Other Recommendations:

It is further recommended that the property be replatted and that applicant work with the Traffic Department.

RESULTS OF NOTICES FOR COUNCIL HEARING:
