Mr. Bannwolf made a motion to approve the proposed Ordinance. Mr. Carpenter seconded the motion.

Mr. Oscar Serrano, Asset Management, narrated a video presentation on the proposed License Agreement with San Antonio Pipeline Corporation. He explained the route for the proposed 13-mile-long pipeline designed to carry Jet A fuel to International Airport, a proposed agreement two years in negotiation. He stated that the pipeline avoids residential areas, and noted that the pipeline will greatly curtail the number of petroleum tank trucks carrying Jet A fuel to International Airport at the present time on City streets and expressways. He then addressed the successful usage of such Jet A pipelines in other cities to service the fuel needs of their airports, and spoke to the coordination necessary to insure no interference with the pipeline dig and buried utilities along the route. He then addressed the details of the safety-shutdown plan for the pipeline, and called attention to the many hundreds of miles of buried natural gas pipelines now traversing the City, without incident. He then spoke to the revenues to be received from the Pipeline Corporation, and addressed how those charges were worked out, in negotiation.

Mayor Peak stated his opinion that the pipeline is a good idea, and has been given the best possible routing. He noted that it would greatly alleviate the use of tank trucks carrying jet A fuel over City streets and their safety concern.

In response to a question by Mr. Salas, Mr. Serrano stated that the pipeline will not come within 25 feet of any building along its route, including residential areas, and addressed the technique of taking x-rays of the pipeline.

In response to a question by Mr. Salas, Mr. Gonzalo Ancira, consulting engineer, noted that the pipeline would have 42-foot joints. He spoke to the injection points from which to insert fuel from various fuel sites, many of which are located along Loop 410. He then addressed safety checks for the pipeline and the welds used to secure the joints.

Mr. Bannwolf thanked City staff for its successful negotiations, and the contractor for making certain concessions to the agreement, of which he spoke in support.

After consideration, the motion, carrying with it the passage of the Ordinance, prevailed by the following vote: **AYES:** Perez, Salas, Prado, Garcia, Barrera, Garza, Conner, Bannwolf, Carpenter, Peak. **NAYS:** None. **ABSENT:** Guerrero.
