 AN ORDINANCE **OH-123**

TO AMEND "AN ORDINANCE TO REGULATE THE CONSTRUCTION, ALTERATION, MAINTENANCE, REPAIR AND REMOVAL OF BUILDINGS WITHIN THE CITY OF SAN ANTONIO AND PRESCRIBING PENALTIES FOR VIOLATIONS THEREOF", PASSED AND APPROVED ON THE 13 OF JANUARY 1913 AND AS AMENDED ON THE 1 OF AUGUST 1932 AND AS AMENDED ON THE 25 OF OCTOBER 1932.

BE IT ORDAINED BY THE COMMISSIONERS OF THE CITY OF SAN ANTONIO:-

1. THAT Sections 129 of "AN ORDINANCE TO REGULATE THE CONSTRUCTION, ALTERATION, MAINTENANCE, REPAIR AND REMOVAL OF BUILDINGS WITHIN THE CITY OF SAN ANTONIO AND PRESCRIBING PENALTIES FOR VIOLATIONS THEREOF", passed and approved on the 13 of January 1913 as amended on the 1 of August 1932 and as amended on the 25 of October 1932, be and the same is hereby amended so that hereafter it shall read in words and figures as follows:

"Section 129: The License and Dues Collector of the City of San Antonio shall collect in advance from every person, firm or corporation desiring a building permit for the work herein named, when the same is required by the Charter and Ordinances of the City of San Antonio the following fees for the erection, construction, alteration, repair and removal of any building at the following rates:

\$100.00 or less - - - - -	\$ 0.50
\$101.00 to \$500.00 both inclusive - -	1.00
\$501.00 to \$1,000.00 both inclusive -	1.50
\$1001.00 to \$2000.00, both inclusive -	2.00
\$2001.00 to \$3000.00, both inclusive -	3.00
\$3001.00 to \$4000.00, both inclusive -	4.00
\$4001.00 to \$5000.00, both inclusive -	5.00
\$5001.00 and up, 1/10 of 1% of the estimated cost.	

"All fees collected belong to the City of San Antonio. The Inspector of Buildings shall make a complete monthly statement showing each application approved, the amount of the fee to have been collected, from whom to be collected and for what purpose, and shall file said statement forthwith with the City Auditor".

2. That Section 129 of said ordinance as it existed prior to the date of the enactment of this ordinance be and the same is hereby repealed and this ordinance shall stand in the place thereof.

3 WHEREAS, an emergency is apparent for the immediate preservation of order, good government and public safety that requires this Ordinance to become effective at once; therefore, upon the passage of this Ordinance by a vote of four-fifths (4/5) of the Commissioners it shall be effective from and after the date of its passage as made and provided by the Charter of the City of San Antonio.

4. PASSED AND APPROVED this 28 day of February, A. D. 1935.

ATTEST: Jas. Simpson.
City Clerk.

C. K. Quin.
Mayor.

AN ORDINANCE *OH-125*

Levying special taxes for the payment of interest on and to create a sinking fund for the ultimate payment of certain issues of bonds, issued on the credits of Improvement Districts No. 2, 3, 4, 7, 8, 10, 12, and 14, in the City of San Antonio, Texas, for the fiscal year beginning June 1, 1934 and ending May 31, 1935.

BE IT ORDAINED BY THE COMMISSIONERS OF THE CITY OF SAN ANTONIO:

Section 1: That for the payment of the interest on a certain issue of bonds in the sum of \$30,000.00, issued on the credit of Improvement District No. 2, as authorized at a special election held in said Improvement District on the 12th day of October 1903, in accordance with Section 54 of the Charter of the City of San Antonio, and to create a sinking fund for the ultimate payment thereof, there is hereby levied for the fiscal year beginning June 1, 1934 and ending May 31, 1935, a special tax of three Cents (3) on the One Hundred Dollars valuation on all property, real, personal and mixed, not otherwise exempted by the Constitution and laws of this state, and situated in what is known as said Improvement District No. 2, in the City of San Antonio, as the same has been defined by Ordinance of the City Council of said City.

Section 2: That for the payment of interest on a certain issue of bonds in the sum of \$38,000.00 issued on the credit of Improvement District No. 3, as authorized at a special election held in said Improvement District on the 21st day of December, 1904, in accordance with Section 54 of the Charter of the City of San Antonio, and to create a sinking fund for the ultimate payment thereof, there is hereby levied for the fiscal year beginning June 1, 1934, and ending May 31, 1935, a special tax of Four Cents (4) on the One Hundred Dollars valuation of all property, real, personal and mixed, not otherwise exempted by the Constitution and laws of this State, and situated in what is known as said Improvement District No. 3, in the City of San Antonio, as the said has been defined by ordinance of the City Council of said City.

Section 3: That for the payment of the interest on a certain issue of bonds in the sum of \$221,000.00, issued on the credit of Improvement District No. 4, as authorized at a special

election held in said Improvement District on the 8th day of February, 1913, in accordance with Section 54 of the Charter of the City of San Antonio, and to create a sinking Fund for the ultimate payment thereof, there is hereby levied for the fiscal year beginning June 1, 1934 and ending May 31, 1935, a special tax of Twelve Cents (12) on the One Hundred Dollars valuation on all property, real, personal and mixed, not otherwise exempted by the Constitution and laws of this State, and situated in what is known as said Improvement District No. 4, in the City of San Antonio, as same has been defined by ordinance of the City Council of said City.

Section 4: That for the payment of the interest on a certain issue of Bonds in the sum of \$45,000.00 issued on the credit of Improvement District No. 7, as authorized at a special election held in said Improvement District on the 15th day of July, 1908, in accordance with Section 54 of the Charter of the City of San Antonio, and to create a sinking Fund for the ultimate payment thereof, there is hereby levied for the fiscal year beginning June 1, 1934 and ending May 31, 1935, a special tax of Four Cents (4) on the One Hundred Dollars valuation on all property, real, personal and mixed, not otherwise exempted by the Constitution and laws of this State, and situated in what is known as said Improvement District No. 7, in the City of San Antonio, as the same has been defined by Ordinances of the City Council of said City.

Section 5: That for the payment of the interest on a certain issue of Bonds in the sum of \$75,000.00 issued on the credit of Improvement District No. 8, as authorized at a special election held in said Improvement District on the 14th day of March, 1905, in accordance with Section 54 of the Charter of the City of San Antonio, and to create a sinking Fund for the ultimate payment thereof, there is hereby levied for the fiscal year beginning June 1, 1934 and ending May 31, 1935, a special tax of three Cents (3) on the One Hundred Dollars valuation on all property, real, personal and mixed, not otherwise exempted by the Constitution and laws of this State, and situated in what is known as said Improvement District No. 8, in the City of San Antonio, as the same has been defined by ordinances of the City Council of said City.

Section 6: That for the payment of the interest on a certain issue of Bonds in the sum of \$43,000.00 issued on the credit of Improvement District No. 10, as authorized at a special election held in said Improvement District on the 4th day of August 1905, in accordance with Section 54, of the Charter of the City of San Antonio, and to create a Sinking Fund for the ultimate payment thereof, there is hereby levied for the fiscal year beginning June 1, 1934 and ending May 31, 1935, a special tax of Four Cents (4) on the One Hundred Dollars valuation on all property, real, personal and mixed, not otherwise exempted by the Constitution and laws of this State, and situated in what is known as said Improvement District No. 10, in the City of San Antonio, as the same has been defined by ordinance of the City Council of said City.

Section 7: That for the payment of the interest on a certain issue of Bonds in the sum of \$5,000.00 issued on the credit of Improvement District No. 12, as authorized at a special election held in said Improvement District on the 17th day of September 1909, in accordance with Section 54 of the Charter of the City of San Antonio, and to create a sinking fund for the ultimate payment thereof, there is hereby levied for the fiscal year beginning June 1, 1934 and ending May 31, 1935, a special tax of Two Cents (2) on the One Hundred Dollars valuation on all property, real, personal and mixed, not otherwise exempted by the Constitution and laws of this State, situated in what is known as Improvement District No. 12, in the City of San Antonio, as the same has been defined by Ordinances of the City Council of said City.

Section 8: That for the payment of the interest on a certain issue of Bonds in the sum of \$17,500.00 issued on the credit of Improvement District No. 14, as authorized at a special election held in said Improvement District on the 21st day of June 1919, in accordance with Section 54 of the Charter of the City of San Antonio, and to create a sinking fund for the ultimate payment

there is hereby levied for the fiscal year beginning June 1, 1934 and ending May 31, 1935, a special tax of Seven Cents (7) on the One Hundred Dollars valuation on all property, real, personal and mixed, not otherwise exempted by the Constitution and laws of this State, and situated in what is known as Improvement District No. 14, in the City of San Antonio, as the same has been defined by ordinance of the Board of Commissioners of said City.

CONTRACT BETWEEN THE CITY OF SAN ANTONIO AND THE J. W. BARETTA ENGINEERS, INC., FOR CONSULTING AND SUPERVISORY ENGINEERING SERVICES ON A SEWERAGE SYSTEM WITHIN A SPECIFIED AREA OF SAID CITY.

THE STATE OF TEXAS,
COUNTY OF BEXAR,
CITY OF SAN ANTONIO.

1. THIS CONTRACT made and entered into this 5th day of March, in the year 1935, by and between the City of San Antonio, a municipal corporation of the State of Texas, located in the County of Bexar, hereinafter called the CITY, and the J. W. Baretta Engineers, Incorporated, a private corporation of the City of San Antonio, County of Bexar, and State of Texas, hereinafter called the ENGINEER; said agreement being made pursuant to the charter and powers of the City and the ordinances and resolutions of its governing body; WITNESSETH:-

2. That the parties to these presents, each in consideration of the agreements on the part of the other herein made and referred to, have agreed mutually and hereby agree mutually,

the City for itself and its successors, and the Engineer for itself and its successors, as follows, to-wit:-

3. The Engineer agrees and binds itself for the consideration hereinafter mentioned, to wholly at its own cost and expense, in every way forthwith, prepare all required plans and specifications for a sanitary sewer system in and for said City located in an area bounded on the East by the West property line extended of the elevated tank location owned by the City of San Antonio Water Board, on the South by the North property line of Lullwood Avenue extended, on the West by the East property line of McCullough Avenue, and on the North by the City limits of the City of San Antonio. Said plans and specifications are in addition to the preliminary report on the construction of said sanitary sewerage system, and preliminary estimate of materials and labor required and necessary for the construction which has already been completed and furnished to the City. Said preliminary report, estimate, plans, specifications, and other documents for said sanitary sewerage system are to be used for the purpose of obtaining necessary materials and labor for said construction, from Federal Government Relief Agencies or other sources.

4. The Engineer shall prepare such plans and specifications for construction of said sanitary sewerage system to the satisfaction of the President and Board of Directors of Bexar County Water Control and Improvement District Number 1, the Mayor and Commissioners of the City of San Antonio, ^{the City Engineer of the City of San Antonio} and the City Sewer Engineer of the City of San Antonio; and until final completion of the construction work outlined in this contract shall supervise the construction thereof by capable assistants and inspectors. The Engineer shall furnish and supply at its own cost all traveling and transportation expenses, surveying and drafting equipment, engineers, rodmen, inspectors, labor, materials, and equipment necessary to prepare said construction plans and specifications, and when construction is started shall furnish such engineering supervision necessary to fully supervise the construction of the said sanitary sewerage system until the completion of the same, and shall prepare or assist in the preparation of such estimates and reports as are necessary, and shall perform such other duties as are customarily included under the heading of supervision of a project of this type.

5. The City shall furnish the Engineer with complete information regarding the rights, restrictions and easements within the boundaries covered by the construction and shall pay for all necessary borings or test pits!

6. The Engineer shall furnish all technical data necessary for negotiations between the City and Bexar County Water Control and Improvement District Number 1, and shall assist both of these parties in the formulation of a satisfactory contract between them, for the transportation of sewage from the area within the city as outlined in this contract, through the sewerage system. The Engineer shall likewise design and supervise the connection between the sewerage system to be owned by the Bexar County Water Control and Improvement District Number 1. The Engineer shall also furnish all engineering services necessary for the construction of certain other miscellaneous sewerage connections on property of the City of San Antonio located within the boundaries of the Olmos Flood Detention Basin and the engineering services necessary for making one house connection on property owned by the City on Devine Road north of Olmos Drive, provided that such construction work is completed within the time necessary for the completion of construction ^{in the area} work as outlined in Section 3 of this contract.

7. The Engineer shall deliver to the City and to the Bexar County Water Control and Improvement District Number 1 each, one complete copy of plans, specifications and other documents relating to said construction so that each of the above mentioned parties shall have within their custody a complete detailed record of the said sanitary sewerage system constructed within the area as outlined in this contract. The Engineer shall also furnish all copies of plans and

constructed in the area outlined in this contract, and the sanitary system located in Bexar County Water Control, and Improvement District Number 1.

specifications necessary for the furnishing of labor and materials, and the completion of construction work.

8. If at any time the City shall notify the Engineer that any person employed in this work by the Engineer is in its opinion incompetent, unskilled, disobedient, or disrespectful towards the City or any of its officers or employees, then the Engineer shall forthwith discharge such person and such person shall not again be employed on such work without the written consent of the City.

9. When construction work starts on the sanitary sewerage system the City shall pay to the Engineer the sum of \$300.00, said payment to cover in full all fees due the Engineer for work performed up to and including the beginning of construction. On the completion and acceptance of the construction work as outlined in this contract the City shall pay to the Engineer an additional sum of \$200.00, said payment to cover in full all fees due the Engineer for other services performed during the construction period as well as the supervisory engineering services performed in accordance with the terms of this contract. The total fee to be paid the Engineer for services as outlined in this contract shall be the sum of \$500.00.

10. The Engineer will not be required by the City to incur any traveling expenses outside of the boundaries of Bexar County. If any traveling outside of the boundaries of Bexar County is directed, all expenses incurred in connection therewith will be paid by the City. The City shall furnish all legal services and financial data necessary for carrying the project through to completion and agrees that it will use all reasonable means to expedite the beginning of construction and the completion of same.

11. The City further agrees that the reports, estimates, plans, specifications and other documents pertaining to the construction work outlined in this contract, shall remain the property of the Engineer until payment is made for same in accordance with the terms of this contract. If the Engineer is caused extra drafting or other expense, due to changes ordered by the City or Bexar County Water Control and Improvement District Number 1, it shall be equitably paid for such extra expense and the service involved. If any of the work designed or specified by the Engineer is abandoned or suspended, the Engineer is to be paid for the service rendered on account of it.

12. IN WITNESS WHEREOF, the City of San Antonio has caused these presents to be executed lawfully by the hand of C. K. Quin, Mayor of said City, and the corporate seal of said City to be affixed hereunto, and this instrument to be attested by the City Clerk; and the J. W. Baretta Engineers, Incorporated, has caused these presents to be executed lawfully by the hand of J. W. Baretta, President of said corporation, and the corporate seal of said corporation to be affixed hereunto, and this instrument to be attested by the Secretary of said corporation.

13. DONE in triplicate originals, at San Antonio, Texas, on the day and year first hereinbefore written.

CONTRACT BETWEEN BEXAR COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 4 AND THE CITY OF SAN ANTONIO TO HANDLE THE SEWAGE OF SAID DISTRICT.

THE STATE OF TEXAS,
COUNTY OF BEXAR,
CITY OF SAN ANTONIO.

THIS CONTRACT made and entered into this the 6th day of March, in the year 1935, by and between the City of San Antonio, a municipal corporation of the State of Texas, located in the County of Bexar, hereinafter called the CITY, and the Bexar County Water Control and Improvement District No. 4, a municipal corporation of the State of Texas, located in the County of Bexar, hereinafter called DISTRICT, all pursuant to laws of the State of Texas and the relevant provisions of the Charter, the ordinances and resolutions of the contracting parties:

WITNESSETH:

I

That the parties to these presents, each in consideration of the agreements on the part of the other herein made and referred to, have agreed mutually and hereby agree mutually, the City for itself and its successors, and the District for itself and its successors, as follows, to-wit:-

II

The City of San Antonio will take the Sanitary sewage of the Bexar County Water Control and Improvement District No. 4 for a term of twenty-five (25) years at the point where the sewerage line of the District enters the property of the City and transport the sewage through the sewerage system of the City and treat it for disposal with the sewage of the City.

III

(a) The District obligates itself to pay the City for this service at the office of its License and Dues Collector for the term of twenty-five (25) years, at the rate of \$20.00 for each million gallons of sewage put into the city sewerage system at the point of connection; payments to be made on the 1st day of October and the 1st day of April of each year during the term of this contract.

(b) As a further consideration to the City from the District for the disposal, etc., of the District's sewage as set out in Paragraph II, supra, the District agrees to build and turn over to the City:

One open top reinforced concrete digester 75 ft. in diameter with walls 12"

thick approximately 26 ft. high and with a 6" concrete floor sloping to the center, the bank to be connected with cast iron pipe to the primary sludge, excess sludge, ripe sludge and supernatant liquor lines. This digester is to be constructed south of and approximately in line with the existing digester No. 3. All to be according to final details, and specifications, agreed upon between W. B. Stanley, Superintendent of the San Antonio Sewage Treatment Plant and H. R. F. Helland, Engineer for the B. C. W. C. & I. D. #4, and which said final details and said specifications, duly signed by the said Stanley and the said Helland, are now on file in the offices of the said Helland located in the Frost National Bank Building, San Antonio, Bexar County, Texas. The construction of said digester is a condition precedent to the operation of this contract.

IV

The District will put a meter with its equipment and appurtenances, approved by the City Engineer of the City, at the point of connection, to measure the quantity of sewage delivered to the City.

V

The District conveys to the City the fee simple title to the sewer line and its appurtenances, built by the District on property of the City of within the limits of the City.

VI

The rights granted to the District under this contract are limited to the territorial limits of the District as of the time of the execution of this contract, and the rights are limited to the contracting parties and no other person shall have any right herein, or based hereon.

VII

The District will maintain careful inspection of its sanitary sewerage system and will stop the flow of any water, oil, acid or any other thing detrimental to the sewerage system of the City, or which might impair the function on the sewerage treatment plant of the City; and maintain the sewerage system in good condition continuously.

VIII

The District shall require service connections and the installation of house piping after the execution of the contract to be made in conformity with the Ordinances of the City, and shall pay the City the fees for the inspection and approval thereof by the City Plumbing Inspector.

IX

The District shall file with the City a contour map and a plat of its sewerage system showing all mains and connections and the size thereof, and shall keep the same accurately up to date.

X

The City shall never be liable to the District for pecuniary damages for failure to take the sewage of the District into the sewerage system of the City and the right for such action is waived as a part of the consideration of this contract.

XI

The District shall levy annually and collect a tax or an assessment to pay the City the consideration specified in this contract, and the District shall appropriate annually for each fiscal year the money to pay the rental as it accrues, and such rental is hereby fixed and declared a current expense of the District for each year.

XII

The District covenants to indemnify and save the City whole and harmless from

any costs, expense, demands, or causes of action, real or asserted, or for any damage to any person or property caused by a failure of the District to properly comply with the obligations placed upon the District by this contract. It is understood and agreed that in the disposal of the sewage of the District by the City, as contemplated by this contract, the City will be an Independent Contractor.

XIII

The District shall deliver a bond of \$2,500.00 to the City, with one surety who shall be a corporation authorized to do business in Texas, to guarantee the City against the failure of the District to pay the rate stipulated in this contract. On the failure of the District to keep this bond in force during the term of this contract, if such bond can be had, or, on its failure to perform its obligations of this contract, this contract shall end as to its rights as if by expiration of the term.

XIV

This contract shall become effective upon the adoption of the governing bodies of the contracting parties; and all agreements, if any, existing heretofore between the contracting parties relating to the subject^{matter} of this instrument, are superseded expressly by this contract and shall be null and void.

XV

This writing constitutes the entire contract between the parties hereto, there being no other written nor any parol agreement with any officer or employee of the City of San Antonio, it being understood that the Charter of San Antonio requires all contracts of the City to be in writing and adopted by ordinance.

IN WITNESS WHEREOF, the City of San Antonio has caused these presents to be executed lawfully by the hand of C. K. Quin, Mayor of said City, and the corporate seal of said City to be affixed hereunto, and this instrument to be attested by the City Clerk; and the Bexar County Water Control and Improvement District No. 4 has caused these presents to be executed lawfully by the hand of P. H. Mullinax, President of the Board of Directors of said District and the corporate seal of said District to be affixed hereunto, and this instrument to be attested by the Secretary of said District.

2. That the parties to these presents, each in consideration of the agreements on the part of the other herein made and referred to, have agreed mutually and hereby agree mutually, the District for itself and its successors and the City for itself and its successors, as follows to-wit:-

3. The District will take the sanitary sewage of an area of the City bounded on the East by the West property line extended of the elevated tank location owned by the City of San Antonio Water Board, on the South by the N. P. L. of Lullwood Avenue extended, on the West by the E. P. L. of McCullough Avenue, and on the North by the City Limits of the City of San Antonio, for a period of 30 years from July 12, 1934, at five points where the sewerage lines of the aforementioned area of the City enter the property of the District and transport the sewerage through the sewerage system of the District to the point where the sewerage line of the District enters the property of the City.

4. The District will likewise that the sanitary sewerage from one house owned by the City facing on the East side of Devine Road North of the intersection of Devine Road and Olmos Drive, and any houses or park buildings constructed on property of the City lying within the boundaries of the Olmos Flood Denettion Basin for a period of thirty years from July 12, 1934 at points where they may be connected to the sewerage system of the District and transport the sewerage through the sewerage system of the District to the point where the sewerage line of the

District enters the property of the City.

5. The City obligates itself to make rebates and deductions to the District for the term of 30 years from July 12, 1934 at the rate of \$20.00 for each million gallons of sewage put into the District sewerage system at the points of connection; such rebates and deductions to be made on the 1st day of October and the 1st day of April of each year during the term of this contract.

6. In order to determine the proper amounts of rebates and deductions as described in Section 5 of this contract, both the District and the City shall keep and report an accurate record of the number of actual connections to the sewerage systems within their jurisdictions as heretofore described in this contract; such report and record to be brought up to date each time that measurement readings are made on the District Flowmeter for the purpose of determining the total gallonage of sewage on which payments from the District to the City are to be made in accordance with a contract between the District and the City dated July 12, 1934. By dividing the total gallonage of sewage passing through the District Flowmeter over each semi-annual period by the total number of connections contributing to that sewage on the date of measurement an average gallonage of sewage per connection is then established for that period. To determine the gallonage on which the City is to base the abovementioned rebates and deductions, the average gallonage of sewage per connection for the stated period is then multiplied by the number of connections lying within the jurisdiction of the City as heretofore set out in this contract. Such total calculated gallonage of sewage shall then be accepted by both the District and the City as the quantity of sewage delivered by the City to the District. Each apartment in apartment houses shall be considered a connection.

7. The City conveys to the District the fee simple title to the sewer line and its appurtenances built by the City on the property of the District or within the limits of the District.

8. The City agrees that all construction, workmanship and materials entering into the construction of any sewerage lines built by or within the limits of the City on the property of the City or the District shall rigidly meet the specifications under which the District carried on the construction of its own sewerage system and shall be subject to the approval of the District Consulting Engineer. This shall apply to all connection lines which are built by individuals on their own property for the purpose of connecting to the sewerage system. All engineering, inspection and approval costs on such construction work are to be paid by the City.

9. The rights granted to the City under this contract are limited to the areas heretofore outlined in this contract, and the rights are limited to the contracting parties and no other person shall have any right herein or based upon.

10. The City will maintain careful inspection of its sanitary sewerage system and will stop the flow of any water, oil, acid or any other thing detrimental to the sewerage system of the District, and maintain the sewerage system in good condition continuously.

11. The City shall require service connections and the installation of house piping after the execution of this contract, to be made in conformity with the regulations of the District.

12. The City shall file with the District a contour map and a plat of that portion of its sewerage system to which this contract applies, showing all mains and connections and the size thereof, and shall keep the same accurately up to date.

13. The District shall never be liable to the City for pecuniary damages for failure to take the sewage of the City into the sewerage system of the District and the right for such action is waived as a part of the consideration of this contract.

14. The City covenants to indemnify and save the District whole and harmless from any costs, expense, demands, or causes of action, real or asserted, or for any damage to any person or property, caused by anything under this contract. On failure of the City to perform its obligations of this contract, this contract shall end as to the rights of the City as if by expiration of the term.

15. This contract shall become effective upon the adoption of the governing bodies of the contracting parties, and all agreements, if any, with the exception of written contract dated July 12, 1934, existing heretofore between the contracting parties relating to the subject matter of this instrument are superseded expressly by this contract and shall become null and void.

16. This writing constitutes the entire contract between the parties hereto, there being no other written nor any parol agreement with any officer or employee of the District or the City, it being understood that the Charter of San Antonio requires ~~that~~ all contracts of the City to be in writing and adopted by ordinance.

17. IN WITNESS WHEREOF, the Bexar County Water Control and Improvement District Number 1 has caused these presents to be executed lawfully by the hand of J. C. Hall, Chairman of the Board of Directors of said District and the corporate seal of said District to be affixed hereunto, and this instrument to be attested by the Secretary of said District; and the City of San Antonio has caused these presents to be executed lawfully by the hand of C. K. Quin, Mayor of said City, and the corporate seal of said City to be affixed hereunto, and this instrument to be attested by the City Clerk.

18. DONE in triplicate originals, at San Antonio, Texas, on the day and year first hereinbefore written.

BEXAR COUNTY WATER CONTROL AND
IMPROVEMENT DISTRICT NUMBER 1.

BY J. C. Hall
Chairman of the Board of
Directors of said District.

*Amended 6/1/51
O.P.K.W.P. 116*

AN ORDINANCE *OH-129*

AN ORDINANCE CREATING THE OFFICE OF INSPECTOR OF WEIGHTS AND MEASURES IN THE CITY OF SAN ANTONIO; PRESCRIBING HIS DUTIES; THE STANDARD OF WEIGHTS AND MEASURES FOR THE CITY OF SAN ANTONIO; REGULATING THE TESTING AND USE OF WEIGHING AND MEASURING DEVICES; PROVIDING FOR THE ISSUANCE OF CERTIFICATES OF ACCURACY OF WEIGHING OR MEASURING DEVICES; PROHIBITING THE GIVING OF SHORT WEIGHTS OR MEASURES; REGULATING THE MANUFACTURE AND SALE OF CERTAIN COMMODITIES WITH RESPECT TO WEIGHT, MEASURE AND NUMERICAL COUNT; CONTAINING SPECIFICATIONS AND TOLERANCE; DEFINING CERTAIN TERMS AND AND PROVIDING PENALTIES FOR THE VIOLATION OF THIS ORDINANCE; PROVIDING FOR THE METHOD OF PROSECUTING CORPORATIONS AND OTHERS FOR VIOLATING THIS ORDINANCE; CONTAINING A SAVING CLAUSE; REPEALING ALL FORMER ORDINANCES IN CONFLICT HEREWITH; AND ENACTING THE NECESSARY PROVISIONS INCIDENT TO THE OBJECT AND PURPOSE OF THIS ORDINANCE WHETHER MENTIONED IN DETAIL IN THE CAPTION OR NOT.

BE IT ORDAINED BY THE COMMISSIONERS OF THE CITY OF SAN ANTONIO:

*Amended
6/1/51
P.O. 5
P.O. 2000*

SECTION ONE: There is hereby ~~created~~ *→ amended 6/1/51* a Department of Weights and Measures of the City of San Antonio. Said Department shall be in charge of and under control of an officer to be known as the Sealer of Weights and Measures of the City of San Antonio, who shall be appointed by the Mayor. That the said Sealer of Weights and Measures shall receive such salary as the Commissioners may provide, payable semi-monthly during the period of his appointment; provided, that the City may impose the duties herein prescribed upon such officers as they see fit in the employ of the City.

*amended
See
above*

SECTION TWO: DEPUTY SEALERS. *→ amended 6/1/51* There shall be such Deputy Sealers of Weights and Measures as the Mayor may appoint, and receive such compensation as the Commissioners may provide, payable semi-monthly during the period of appointment.

SECTION THREE: SEALER TO PURCHASE WEIGHTS AND MEASURES; STANDARD OF WEIGHTS AND MEASURES; CUSTODIAN. The Sealer of Weights and Measures of the City of San Antonio shall procure, through the Purchasing Agent, a complete set of accurate weights and measures and shall cause the same to be tried, proved, sealed and certified to by the official custodian of weights and measures of the State of Texas. Thereafter such weights and measures shall be the standard of weights and measures for the City of San Antonio, and for all vendors therein. The Standard of Weights and Measures adopted and used by the United States Government and by the State of Texas are hereby declared the only legal standard of weights and measures within the limits of the City of San Antonio, and the specifications and tolerances as recommended by the United States Government and of the State of Texas for the various weighing and measuring devices, except liquid measuring devices, are hereby declared to be the specifications and tolerances for weighing and measuring devices to be used within the limits of the City of San Antonio; provided, however, that in case the standard of weights and measures and specifications and tolerances prescribed by the United States Government and by the State of Texas do not fully embrace all the requirements of this Ordinance with reference to weights and measures, then in such event the Standard herein prescribed shall control. The Sealer of Weights and Measures shall be the custodian of such standard set of weights and measures, and the same shall at all times conform to the standard of weights and measures established and prescribed by law.

SECTION FOUR: DUTY TO INSPECT; WEIGHTS, ETC.; STAMP AND ISSUE CERTIFICATES. It shall be the duty of said Sealer of Weights and Measures, as soon after his appointment and qualification as possible, and of him and his successors in office, not less than one time during each and every year hereafter, and as much oftener as may in his judgement be necessary, to inspect and test the accuracy of all weights and measures, and weighing and measuring devices, used in

weighing and measuring any article ^{or articles} intended to be purchased or sold in said City; and to stamp with a suitable and permanent seal upon which shall appear the year when the inspection was made and the letters S. A., meaning "San Antonio Standard", all such weights, measures and weighing and measuring devices so used which he may find to accurately conform to the City Standard of Weights and measures, and deliver to the owner thereof a certificate of its or their accuracy. Such weights, measures and weighing and measuring devices so sealed shall be described in such certificate with sufficient particularity so that the same may be identified and such certificate shall be signed by the Sealer of Weights and Measures, or by the Deputy Sealer of Weights and Measures, by whom the inspection is made.

SECTION FIVE: DUTIES OF SEALER. It shall be the duty of the Sealer of Weights and Measures to devote his entire time to the duties of his office; to visit from time to time as may be necessary all places in said City where weights, scales or measures of any kind or character are used, and to inspect all weights and measures of any character found therein, and for said purpose it shall be lawful for the Sealer of Weights and Measures, or any Deputy Sealer of Weights and Measures, and he is so empowered to enter at any reasonable hour any place, premise, storehouse or other building where any such weight, scale or measure is used, or where he believes the same is being used; and the Sealer of Weights and Measures is charged with the enforcement of all laws and ordinances relating or pertaining to weights and measures or sales thereby or therewith, and such other and further duties as may be placed on him by ordinance of the City of San Antonio.

SECTION SIX: DUTIES AND POWER OF DEPUTY SEALER. Where and duty is placed upon the Sealer of Weights and Measures of the City of San Antonio under this or any other ordinance of the City of San Antonio, the same may be performed by any qualified Deputy Sealer of Weights and Measures, and he and they are granted the powers of police officers and are authorized to make arrests with or without warrants, where a regular police officer would be authorized so to do.

SECTION SEVEN: REGISTER TO BE KEPT AND CONTENTS. It shall be the duty of said Sealer of Weights and Measures to make a register of all weights, measures, scale beams, patent balances, steel yards and all other instruments used for weighing or measuring, inspected and sealed by him, in which he shall state the names of the owners of same and their addresses, and whether they are conformable to the standards of the City of San Antonio.

SECTION EIGHT: REPORTS TO MAYOR. The Sealer of Weights ^{added 6/1/11} and Measures shall keep all records which he is required to keep by virtue of the laws of this State, and make reports in relation thereto to the Mayor as may be requested, and said Sealer shall make all further additional records and reports ^{added 6/1/11} as may be required of him by the Mayor.

SECTION NINE: FALSE WEIGHTS AND MEASURES. Any person who, by himself or his employee or agent, or as the employee or agent of another, shall offer or expose for sale, sell, use or retain in his possession any false weights or measures, or weighing or measuring devices, in the buying or selling of any commodity or thing or in calculating or measuring service, or in the determination of weight or measure when a charge is made for such determination, or who shall dispose of any condemned scales, weights, measures or weighing or measuring devices contrary to law; or who shall sell or offer or expose for sale less than the quantity he represents of any commodity, thing or service, or shall take or attempt to take more than the quantity he represents of any commodity, thing or service, when, as the buyer or weigher of any commodity, he furnished the weight, measure, or weighing or measuring device by means of which the amount of any commodity, thing or service is determined; or who shall sell or offer for sale, or use, or have in his possession for the purpose of selling or using, any device or instrument to be used to or calculated

to falsify any weight or measure; shall be guilty of a misdemeanor, and shall be punished by a fine of not less than \$20.00 or more than \$100.00 upon the first conviction; and upon a second or subsequent conviction he shall be punished by a fine of not less than \$50.00 or more than \$200.00.

SECTION TEN: SALE OF COMMODITIES BY WEIGHT OR MEASURE. It shall be unlawful for any person by himself or by his employee or agent, or as the employee or agent of another, to sell, offer or expose for sale any commodity in bulk or package form in quantities of less weight, measure or numerical count than that represented by such person to the purchaser of said commodity. All weights shall be the net weight, and shall not include the weight of package, container or wrapping in which the commodity is placed. The offense defined in this section shall be a misdemeanor and shall be punishable as hereinafter provided in this Ordinance.

SECTION ELEVEN: SEALER SHALL NOT VEND DEVICES. It shall be unlawful for the Sealer of Weights and Measures or for the Deputy Sealers of Weights and Measures to vend any weights, measures, scales, scale beams, patent balances, steelyards, automatic or computing scales, or other instruments to be used for the purpose of weighing or measuring, or to offer or expose the same for sale, or be interested, directly or indirectly, in the sale of same in the City of San Antonio, or to recommend to any person within said City the purchase of any particular kind of weighing or measuring device or the purchase from any particular person of any of the aforesaid articles.

SECTION TWELVE: POWER OF SEALER AND DEPUTIES. The Sealer of Weights and Measures or any of the Deputy Sealers of Weights and Measures shall have the power to arrest without warrant any violator of this Ordinance, and to seize without warrant, for evidence, any false or incorrect weighing or measuring device and any weighing or measuring device that has been in any way tampered with or altered in any way after having been sealed by the Sealer of Weights and Measures, or any Deputy Sealer of Weights and Measures, found in the possession of any person.

SECTION THIRTEEN: DUTY TO INSPECT UPON COMPLAINT. That it shall be the duty of the Sealer of Weights and Measures of the City of San Antonio, in addition to the test hereinbefore provided, to test upon the request of any person or persons any scale, scale beam, steelyard, weight or measure used or kept for the purpose of buying or selling any commodity or for any other commercial use within the City of San Antonio.

SECTION FOURTEEN: WEIGHT INDICATION IN VIEW OF CUSTOMER. All scales used in retail establishments must be so placed that the weight indication is in plain view of and easily readable by both the buyer and the seller. In all other cases where in the opinion of the Sealer, conditions may warrant, scales shall also, be so placed. It shall be unlawful to place any signs, posters, merchandise or any other article or thing in such a position, on or near a scale, that it will obstruct the view of either the buyer or seller, or in any way interfere with the use of said device.

SECTION FIFTEEN: UPON RESIGNATION, ETC., STANDARD BEAMS, ETC. TO BE DELIVERED TO MAYOR. Whenever the Sealer of Weights and Measures shall resign, be removed from office, or remove from the City, it shall be his duty to deliver to the Mayor all the standard beams, weights and measures in his possession, and all records, files and other equipment kept and maintained by him.

SECTION SIXTEEN: BREAD. It shall be unlawful for any person by himself or by his employee or agent of another, to manufacture for sale, sell, offer or expose for sale any bread otherwise than by the following units of weight: One (1) pound net, one and one-half (1½) pounds net, or multiples of one (1) pound net. The weight specified in this section shall mean net weight not more than 24 hours after baking. All bread offered or exposed for sale or in the process of delivery in the City of San Antonio shall for the purpose of this Section, be deemed

prême facie to have been baked within 24 hours, unless such bread is marked, designated or segregated as "stale bread."

The variation and tolerance allowed in the weight of bread shall not exceed one (1) ounce per pound, over or under, on each individual loaf, within said 24 hour period; and the variation and tolerance allowed on 10 loaves of bread, made by the same manufacturer when weighed collectively, shall not exceed one-fourth ($\frac{1}{4}$) ounce per pound in deficiency.

The weights set out in this Section shall not apply to crackers, pretzels, biscuits, buns, rolls, or loaves of fancy bread weighing less than one-fourth ($\frac{1}{4}$) pound avoirdupois.

Any person violating any of the provisions of this Section of this Ordinance, shall be deemed guilty of a misdemeanor, and shall be fined not less than \$25.00 nor more than \$200.00

SECTION SEVENTEEN: BUTTER. It shall be unlawful for any person, by himself or by his employee or agent, or as the employee or agent of another, to manufacture for sale, sell, offer or expose for sale any butter or renovated or process butter or oleomargarine, otherwise than in the following units of weight: One-quarter ($\frac{1}{4}$) pound net, one-half ($\frac{1}{2}$) pound net, ^{one (1) pound net} one and one-half ($1\frac{1}{2}$) pounds net, or multiples of one (1) pound net weight. Each print, brick, roll, crock, tub or container of butter shall bear in a conspicuous position a plain statement of its net weight with the name of the manufacturer thereof upon the wrapper of each print, brick, or roll, or upon the crock, tub or container. Any person violating any of the terms of this Section of this Ordinance shall be deemed guilty of a misdemeanor and shall be punished as hereinafter provided in this Ordinance.

SECTION EIGHTEEN: MILK. It shall be unlawful for any person by himself or his employee or agent, or as the employee or agent of another, to sell milk or cream in bottles other than of the following sizes: Bottles used for the sale of milk or cream shall be of the capacity of standards for the sale of milk in this City and their capacity shall be in the following divisions of the standard gallon of 231 cubic inches, to-wit: the one-half ($\frac{1}{2}$) gallon, the quart, the pint, and the one-half ($\frac{1}{2}$) pint, and the gill. Any person violating any of the terms of this Section of this Ordinance shall be deemed guilty of a misdemeanor, and shall be punished as hereinafter provided in this Ordinance.

SECTION NINETEEN: ICE. It shall be unlawful for any person by himself or by his employee or agent, or as the employee or agent of another, to sell ice otherwise than by net weight and such net avirdupois weight shall be the actual net avoirdupois weight at the time and place of delivery. Every vendor of ice in the City of San Antonio shall, if requested, at the time of actual delivery of any ice sold, weigh the quantity of ice delivered. Each and every set of tongs used in the delivery of ice within said City shall have prominently and conspicuously stamped thereon the exact and true avoirdupois weight of said tongs. It shall be unlawful for any person by himself or his employee or agent, or as the employee or agent of another, in delivering ice on a regularly established or habitual route to fail, omit or refuse to stop on his regular and daily route at any residence or place where any person resides who has made any complaint concerning the short weight of ice, or has requested that the ice delivered to such person be weighed, or at any place where the person delivering ice has theretofore been accustomed to stop, and it shall be unlawful for any such person to refuse to sell ice to any purchaser because such purchaser has made complaint as above set out; and it shall be unlawful for any such person to refuse to sell or deliver any quantity of ice requested by any regular customer not less than twenty-five (25) pounds nor more than fifty (50) pounds. Whoever violates any provision of this Section of this Ordinance shall be guilty of a misdemeanor and shall be punishable as hereinafter provided in this Ordinance.

SECTION TWENTY: SECTION TWENTY: NET CONTAINER: No person shall sell, offer or expose for sale any commodity in packages or containers unless the quantity of the contents of said package or container be plainly and conspicuously marked on the outside of said package or container, by giving the weight, measure or numerical count thereof; and said weight, measure or numerical count shall not include the weight of the package or container; provided, however, that the terms of this Section of this Ordinance shall not apply to drugs. Statements of weight shall be in terms of avoirdupois, pounds and ounces, statements of liquid measure shall be in terms of the United States Gallon of 231 cubic inches and its customary subdivisions and multiples, to-wit: gallon, quart, pint or fluid ounce. Statements of dry measure shall be in terms of the United States Bushel of 2,150.42 cubic inches and its customary subdivisions or multiples, to-wit; bushel, half bushel, peck, quart, pint or half-pint. The quantity of solids shall be stated in terms of weight and of liquids in terms of measures. The quantities of viscous or semi-solid foods or of mixtures of solids and liquids may be stated either by weight or measure, but the statements shall be definite, and shall indicate whether the quantities expressed are in terms of weight or of measure, as for example: (1) weight, 12 ounces; (2) 12 ounces, avoirdupois; (3) volume, 12 ounces; or (4) 12 fluid ounces. The quantities of the contents may be stated in terms of minimum weight, minimum measure or minimum numerical count, for example: (1) minimum weight, 16 ounces; (2) minimum volume, one (1) gallon, or (3) not less than four (4) ounces; but in such case the statement must approximate the actual quantity and there shall be no tolerance below the stated minimum.

The following tolerances and variations from the quantities for the contents marked on the package shall be allowed, except where such packages or containers are marked with the minimum weight, minimum measure or minimum numerical count, as provided for in the preceding paragraph of this section.

Discrepancies in weight or measure due exclusively to the differences in atmospheric condition in various places and which unavoidably result from the ordinary exposure of the packages to evaporation or to absorption of water; and the reasonableness of such discrepancies will be determined by the facts in each case.

A container or package as used in this Section of this Ordinance shall include any carton, box, crate, barrel, half barrel, hamper, keg, drum, jug, jar, crock, bottle, ^{bag} basket, pail, can, wrapper, parcel or package. The following packages or containers shall be deemed to be "small", and shall be exempt from marking in terms of weight, measure or numerical count: (1) a package or container containing one (1) ounce avoirdupois, or less; (2) a package or container containing one (1) fluid ounce, or less; and (3) a package or container containing the numerical count of six (6), or less.

Whoever violates any of the provisions or terms of this Section of this Ordinance, shall be guilty of a misdemeanor, and shall be punishable as hereinafter provided in this Ordinance.

SECTION TWENTY ONE: BRICK CHILI. It shall be unlawful for any person by himself or his employee or agent, or as the employee or agent of another to manufacture for sale, sell, offer or expose or have in his possession for sale any "Chili" otherwise than the following units of weights: One quarter ($\frac{1}{4}$) pound net, one-half ($\frac{1}{2}$) pound net, one (1) pound net, one and one-half pounds net, or the multiples of one (1) pound net. Each brick, print, or roll must be wrapped, with the name and address of the manufacturer, and the true net weight on the outside of the wrapper in a plain conspicuous position. The variation and tolerance in the weight of "Chili" allowed under this Ordinance shall not exceed one-fourth ($\frac{1}{4}$) of an ounce per pound in deficiency on the individual brick, print or roll. Any person violating the terms of this Section of this Ordinance shall be deemed guilty of a misdemeanor, and shall be punished as hereinafter provided in this Ordinance.

SECTION TWENTY TWO: METHOD OF SALE OF MEAT, CHEESE AND OTHER COMMODITIES. It shall be

unlawful for any person, by himself or his employee or agent or as the employee or agent of another to sell, offer or expose for sale in the City of San Antonio any cheese, meat or meat food products otherwise than by standard net weight, at time of sale or delivery. For the purpose of this section the following shall be known as meat and meat food products: all fresh, cured or salt meats, fish, sausage, chili, head cheese, soured meat, loaf meat, boneless meat, shredded meat, hamburger meat, or any other manufactured or processed meat or meat food products. Any person violating any of the terms of this Section of this Ordinance shall be deemed guilty of a misdemeanor and shall be punished as hereinafter provided in this Ordinance.

SECTION TWENTY THREE: METHOD OF SALE OF POULTRY. It shall be unlawful for any person, by himself or his employee or agent, or as the employee or agent of another to sell, offer or expose for sale, any poultry in the City of San Antonio, other than by standard weight at time of sale. This section shall be construed to require that all poultry sold by live weight must be weighed alive at time of sale, and any poultry dressed or killed prior to time of sale must be sold by net weight at time of sale and not by live weight. Any person violating any of the terms of this Section of this Ordinance shall be deemed guilty of a misdemeanor, and shall be punished as hereinafter provided in this Ordinance.

SECTION TWENTY FOUR: SALE NOT FOR IMMEDIATE CONSUMPTION. It shall be unlawful to sell, except for immediate consumption on the premises, liquid commodities in any other manner than by weight or liquid measure, or commodities not liquid in any other manner than by measure of length, by weight, or by numerical count, provided, however, that nothing in this Section shall be construed to prevent the sale of fruits, vegetables, and other dry commodities in the standard barrel or of berries and small fruits in boxes as provided for by State Law, or of vegetables or fruits usually sold by the head or bunch in this manner. For the purposes of this Section the term "commodities not liquid" shall be construed to include goods, wares and merchandise, which are not in liquid form, and which have heretofore been sold by measure of length, by weight, by measure of capacity, or by numerical count, or which are susceptible of sale in any of these ways.

SECTION TWENTY FIVE: SALE BY NET WEIGHT. Whenever any commodity is sold on a basis of weight, it shall be unlawful to employ any other weight in such sale than the net weight of the commodity; and all contracts concerning goods sold on a basis of weight shall be understood and construed accordingly. Whenever the weight of a commodity is mentioned in this Ordinance, it shall be understood and construed to mean the net weight of the commodity.

SECTION TWENTY SIX: RIGID FOUNDATION. It shall be unlawful for any person to use, or retain in his possession for use, any weighing or measuring device unless the installation of same is on a suitable and rigid foundation or support.

SECTION TWENTY SEVEN: WOOD. It shall be unlawful for any person by himself or his employee or agent, or as the employee or agent of another, to sell, offer or expose for sale any wood other than by the following measurement: All wood shall be sold by the cord, or fraction thereof. In all contracts for the sale of wood the term "Cord" shall mean 128 cubic feet of wood, or the contents of a space eight (8) feet long, four (4) feet wide, and four (4) feet high.

Whoever violates any provision of this ordinance shall be guilty of a misdemeanor, and shall be punishable as hereinafter provided in this ordinance.

SECTION TWENTY EIGHT: COAL, HUNDRED WEIGHT COAL, ETC., TON. That in the sale of coal, coke, charcoal and briquettes, the hundred weight shall consist of one hundred pounds avoirdupois, and twenty such hundred weight shall constitute a ton.

From and after the passage of this Ordinance, it shall be unlawful for any vendor to sell, or offer for sale, or have in his possession exposed for sale coal, coke, charcoal or briquettes

by the sack in the City of San Antonio, unless the true net weight thereof be plainly marked or printed on each of such sacks.

From and after the passage of this ordinance, any person, firm or corporation engaged in the business of selling coal, coke, charcoal, or briquettes in the City of San Antonio, to be delivered in said City to any person, firm or corporation not engaged in the business of selling coal, coke, charcoal or briquettes shall provide the driver of the wagon or conveyance with a delivery ticket bearing the name of the person, firm or corporation selling such fuel, showing the net weight of the fuel, and the name and address of the purchaser of said fuel, which said delivery ticket shall be delivered by the driver in charge of the wagon or conveyance to the purchaser or his agent or representative at the time of the delivery of the fuel.

Whoever violates any provision of this section of this ordinance shall be guilty of a misdemeanor, and shall be punishable as hereinafter provided in this Ordinance.

SECTION TWENTY NINE: SAND, GRAVEL, CRUSHED STONE, ETC. It shall be unlawful for any person by himself or his employee or agent or as the employee or agent to sell, offer or expose for sale sand, gravel, crushed stone or any similar commodity, other than by the following specifications: One (1) cubic yard; one and three-quarters ($1\frac{3}{4}$) cubic yards; two (2) cubic yards; and three (3) cubic yards, except that where any of the above commodities are sold by written contracts, the terms of this paragraph or this Ordinance shall not apply.

All vehicles equipped with truck boxes or wagon boxes for the purpose of hauling sand, gravel, crushed stone or any similar commodity shall have the capacity of the box plainly and conspicuously marked on the outside of the box in cubic feet or cubic yards in figures not less than two and one-half ($2\frac{1}{2}$) inches in height, and one and one-half ($1\frac{1}{2}$) inches in width.

No person delivering sand, gravel, crushed stone or any similar commodity shall deliver or cause to be delivered any quantity of said commodity without tendering and delivering a ticket and a duplicate ticket thereof to the person, firm or corporation to whom said delivery is made at the time of making such delivery, and on each of said delivery tickets and duplicates thereof shall be marked in ink or other indelible substance the number of cubic feet or cubic yards of said commodity delivered, together with the name of the purchaser thereof and the name of the dealer from whom purchased. One of said delivery tickets shall be delivered to the purchaser specified thereon or his agent, and the other said delivery ticket shall be retained by the seller.

Whoever violates any provisions of this Section of this Ordinance shall be guilty of a misdemeanor and shall be punishable as hereinafter provided in this Ordinance.

SECTION THIRTY: GASOLINE, LIQUIDS IN GENERAL. The following specifications and tolerances for liquid measuring devices shall hereafter be in force in the City of San Antonio:

SPECIFICATIONS

No. 1: DEFINITION. A mechanically operated liquid measuring device, hereinafter referred to as a liquid measuring device, is a mechanism or machine adapted to measure and deliver liquid by volume. These specifications shall be construed to apply only to liquid measuring devices of the retail type; that is, devices which on account of the character of their primary indicating elements are obviously designated for unit deliveries of less than fifty (50) gallons; provided, that these specifications shall not be construed to apply to water meters of any size, or gross measuring devices.

No. 2: PERMANENCE. All liquid measuring devices shall be of such design, construction and materials that they may reasonably be expected to withstand ordinary usage without impairment of the accuracy of their measurement, or the correct functioning of their operating or indicating parts.

No. 3: PLUMB AND LEVEL CONDITIONS. All liquid measuring devices shall be designed

and constructed that they will be in normal operating position when they are level. All liquid measuring devices shall be installed plumb and level, and their installation shall be of such strength and rigidity as to maintain this condition.

No. 4: MEANS TO DETERMINE LEVEL. Liquid measuring devices, the indications or deliveries of which are changed by an amount greater than one-half the tolerances allowed, when set in any position on a surface making an angle of five (5) per cent, or approximately three (3) degrees with the horizontal, shall be equipped with suitable means by which the level can be determined and established, such as a two way or a circular level, a plumb bob, leveling lugs, etc.

No. 5: UNITS OF DELIVERY. Liquid measuring devices shall have the following discharge capacities per stroke or per cycle of the primary indicating elements, and these only; One gallon; a multiple of the gallon; or a binary submultiple of the gallon; that is, the quantity obtained by dividing the gallon by the number two, or a power of the number two; provided, ^{however} that a device may be constructed to deliver other amounts than the above, corresponding to predetermined money value at a definite price per gallon, but in such cases either the device shall be so constructed that the price per gallon at which it is set at any time will be clearly indicated to the customer by automatic means, or this price shall be shown by means of a sign conspicuously displayed on the device.

No. 6: DEVICE TO INDICATE WHEN SYSTEM IS PROPERLY FILLED. All liquid measuring devices other than those of the visible type shall be equipped with a device which will clearly and distinctly indicate whether or not the system is properly filled before a delivery is begun. This specification shall be construed to prohibit a check valve in the discharge line in such a position that the partial emptying of the system would not be disclosed, but not to prohibit a manually operated valve in the standpipe. Said device shall not be used unless device is full at time of use or delivery is commenced.

No. 7: INDICATION OF DELIVERY REQUIRED. All liquid measuring devices shall be so designed and constructed that the initial zero conditions and the amount delivered shall be clearly and definitely indicated by automatic means, and the indication of any delivery shall take place only when the full discharge has in fact occurred; provided, however, that the requirements that the full discharge shall have been completed before registration shall not apply to the dribble flow caused by the displacement of a piston to its initial position, when a clear statement conspicuous to the customer and adjacent to the indicating means is placed on the liquid measuring device to the effect that the full amount cannot be delivered until the piston or the pointer or indicator has been returned to its initial position.

No. 8: SENSITIVENESS. All liquid measuring devices shall be so designed and constructed that they can readily be operated to deliver each quantity for which a graduation, stop, overflow pipe, or other indicating means is provided, within the tolerance on such amount hereinafter provided.

This specification shall be construed to require that in the case of all devices which have a graduated scale or similar indicating means which at some point or points, or at all points, constitute the sole or most sensitive means of determining the amount of liquid discharged the length of such scale or dial equivalent to the tolerance at any graduation must be readily appreciable when the character of the indication element and its normal distance from any position in reference to the observer's eyes are taken into consideration. The gross inside cross-section area of the measuring chamber shall in no case be less than 75 square inches nor more than 118 square inches and, if cylindrical, the inside diameter of the measuring chamber shall in no case be less than 9.75 inches nor more than 12.25 inches.

No. 9: CONSTANCY OF DELIVERY. The amounts delivered by any liquid measuring device shall not vary from the standard by more than the tolerances hereinafter provided: (1) irrespective of the speed at which the device is operated; and (2) irrespective of the time elapsing between operations subject to the conditions of the special elapsed time test described below. A special elapsed time test shall be made to determine whether the device is satisfactory in respect to condition (2) above. In order to comply with this test the condition of the device shall be such that a period of non-use of one hour shall not result in an error on the first delivery of the device after such period of non use greater than the appropriate tolerance allowable on the smallest amount which the device is designed to deliver, this tolerance being selected according to whether the device is or is not a new device; and a period of non use of 6 hours shall not result in an error on the first delivery of the device after such period of non use greater than ten (10) cubic inches, or in the case of a new device five (5) cubic inches.

No. 10: INDICATING AND REGISTERING PARTS. Counters and graduated scales and dials used on liquid measuring devices to tally sales and deliveries to individual purchasers, or to indicate the amount delivered when any portion of the cycle or stroke has been completed shall be of such size and style and shall be so located and disposed that they are clearly visible to and readable by the customer from any position which he may reasonably be expected to assume. The graduations shall be of such character and arrangement that the major ones are more prominent than and are clearly distinguishable from the minor ones. In all types of liquid measuring devices which have a graduated scale which at some point or points or at all points constitute the sole or most sensitive means of determining the amount of liquid discharged, the width of the graduation marks shall not exceed 0.04 inch.

No. 11: POINTERS AND INDICATORS. All pointers and indicators which when used in conjunction with a graduated scale or dial indicate the amount of liquid discharged or the money value of the delivery at a predetermined price unit of volume shall be so shaped that a correct and accurate reading is given. Pointers and indicators are required to be symmetrical about the graduation lines at which they may stand; provided, however, that in the case of pointers and indicators used in connection with straight scales having non-parallel graduation lines and in respect to the non-horizontal lines on such scales, this requirement shall be waived if the pointers and indicators are so designed and constructed that, as the pointer or indicator approaches the correct indicating position in respect to any graduation line, only such portion of such graduation line as has not yet been reached by the index of the pointer or indicator by a horizontal line extended forward from the end thereof shall be exposed to view, and all other portions of such graduation line adjacent to the index of the pointer or indicator shall be automatically obscured. Pointers and indicators, which, when used in conjunction with a graduated scale or dial, constitute at some point or points, or at all points the sole or most sensitive means of determining the amount of liquid discharged, or the money value of the delivery at a predetermined price per unit of volume, shall reach to the finest graduation marks, and the width of the pointer or indicator, or of the end thereof, shall not be greater than the width of such marks.

No. 12: PARALLAX: All liquid measuring devices in which the accuracy of the readings of any indicating mechanism is affected by parallax shall be so designated and constructed as to reduce a minimum the errors due to this cause. This specifications shall be construed to require that in case of all devices which are equipped with a glass measuring chamber, and in which the quantities delivered are determined by bringing the liquid surface into coincidence with indicators, pointers or graduations which at some point or points or at all points constitute the sole or most sensitive means of determining the amount of liquid discharged, such pointers, indicators or graduations shall be located inside the glass measuring chamber, and not more than 1-16 inch from the surface thereof.

No. 13: GRADUATED SCALES TO BE SECURED. When a liquid measuring device is provided with a graduated scale or dial, this shall be riveted to its supports or otherwise permanently fixed in position; provided, however, that in case of liquid measuring devices of the gague type, a sliding scale will be permitted when the displacement of such scale is by suitable means automatically prevented at all times when liquid is being discharged from the delivery outlet.

No. 14: NUMBERING OF GRADUATIONS. Figures defining the value of graduations shall be uniformly placed in reference to the graduation marks, and shall be as close thereto as practicable, but shall not be so placed as to interfere with the accuracy of reading. Such figures shall be in regular sequence, as 0-1-2-3-4-5 in the 5 gallon visible pump, and 0-1-2-3-4-5-6-7-8-9-10 in the 10 gallon visible pump, and all numerals and graduations shall read from the top of glass container down to full capacity line or numeral which is to be not less than $\frac{3}{4}$ inch above the bottom of the glass measuring chamber to be in plain view of the operator and customer.

No. 15: CAPACITY OF MEASURING DEVICES. Liquid measuring devices of the visible type shall be of a five (5) gallon capacity, or some multiple thereof.

No. 16: SCALES IN OPPOSITE DIRECTIONS PROHIBITED. The use on a liquid measuring device of two graduated scales reading in opposite directions and referable to the same indicating means shall not be permitted.

No. 17: LETTERING AND GRADUATIONS. All markings, instructions, figures and graduations required under these specifications shall be of such size, design, material and location and shall be so applied or affixed that they will not tend easily to become obliterated or illegible, and must be symmetrical and uniform.

No. 18: RETURN OF INDICATING ELEMENT TO ZERO. All liquid measuring devices shall be so designed and constructed that the indicating element used in tallying deliveries to individual purchasers is returnable readily to a definite and clear zero reading before the next delivery is begun. All visible type pumps shall be equipped with a stationary overflow pipe so that liquid will automatically come to zero position when measuring chamber is filled, and said chamber shall be filled to zero position before each individual delivery is begun.

No. 19: STOPS TO BE POSITIVE. When the stops or other stroke limiting devices on a liquid measuring device are subject to direct pressure, or impact in the operation of the device, such stops shall be of such construction that the permanence and security of their positions is provided for by a positive, non-frictional engagement of the parts whose relative motions are to be prevented. Such stops shall be so designed and constructed that adjustment within the prescribed tolerances can be made.

No. 20: STOP MECHANISM TO BE DEFINITELY POSITIONED. All liquid measuring devices designed to deliver two or more different predetermined amounts by bringing into operation different stops or other means of defining the delivery shall be so designed and constructed that the position for the proper setting of each stop is definitely and accurately defined, inadvertent displacement from this position is obstructed, and the delivery for which the device is set at any time is clearly and conspicuously indicated.

No. 21: PROVISION FOR SEALING. All devices adapted to be altered for adjusting or correcting the delivery of a liquid measuring device, or for changing the maximum delivery rate of a meter when this change tends to affect the accuracy of the deliveries, shall be of such construction that they can be sealed, either separately or together, in such a manner that the position of none of them can be changed without destroying the seal or seals; provided, however, that this shall not apply to such devices as alter the deliveries to conform to different prices per

gallon on such/^aliquid measuring device as is described in the proviso of specification No. 5.

No. 22: USE OF ADJUSTMENTS. No adjustment of the delivery of a defined stroke liquid measuring device shall be permitted except that intended to produce a piston displacement per cycle of 231 cubic inches per indicated gallon of delivery. Adjustments of piston displacement to correct for leaks, slippage, excessive length of pipe line, or other defects of the installation shall not be permitted.

No.23: ASSURANCE OF COMPLETE DELIVERY. All liquid measuring devices shall be so designed and constructed as to furnish assurance tha all measured liquid which is apparently being delivered from that delivery outlet which is being employed in any particular operation of the liquid measuring device is actually being delivered as long as there is any liquid passing through the delivery outlet. This specification is to be construed to require that all valves in the supply line intended to prevent the reversal overflow of the liquid shall be of such design and construction that their closure is automatically effected in the use of the device, and that no device shall be used which has more than one delivery outlet. It is further to be construed that there shall be no means provided by which any of the measured liquid can be delivered from the measuring chamber of the discharge line to the supply tank or elsewhere during the period that liquid is flowing from the delivery outlet. In the case of liquid measuring devices of the visible type, they shall all be so constructed that the measuring chamber is filled from a point at least one-half ($\frac{1}{2}$) inch above the level of the over-flow pipe, and there shall be no means, by which liquid can be drawn from the measuring chamber, except through the delivery outlet.

No. 24: AUXILIARY VISIBLE INDICATING DEVICES. Whenever a liquid measuring device of the visible type is so designed and constructed that measured liquid continues to pass through the discharge walve for an appreciable time (3seconds or more) after the liquid has disappeared from sight in the glass measuring chamber, then the device shall be equipped with an auxiliary visible indicating device, adjacent to the discharge valve, and so constructed that it will indicate when any portion of the measured liquid has not been discharged through such valve at the time of closing thereof; provided, however, that in the case of any nominal delivery which is such that it does not cause the liquid to disappear from the chamber, the time interval mentioned above shall be measured from the time that the liquid apparently ceases to fall in such chamber. Such auxiliary visible indicating device shall be so designed and constructed and so located and disposed that its indication is conspicuous and that during the operation of the liquid measuring device it is clearly visible to and readable by the customer. Whenever an auxiliary visible indicating device designed to indicate drainage of liquid or completeness of delivery shall be employed, whether or not it is required by the terms of this specification, it shall comply with all the above requirements.

No. 25: TIME ALLOWED FOR COMPLETION OF DELIVERY. All liquid measuring devices shall be so designated and constructed, or so calibrated, that they will deliver into the discharge line on the delivery side of the discharge valve, within the tolerances hereinafter provided, any nominal quantity which they are designed to deliver, within a period of 10 seconds after the main flow of liquid has ceased. The main flow shall be construed to cease, in the case of a device of the piston type, at the completion of the upward stroke of the piston, and in the case of a device of the visible type, at the time of the dissappearance of the liquid in the glass measuring chamber; provided, however, that in the case of any nominal delivery which is such that it does not cause the liquid to dissappear from the chamber, the time that the liquid apparently ceases to fall in such chamber shall be used in lieu of the time of the disappearance of the liquid. And provided, further, that in the case of any liquid measuring device equipped with any auxiliary visible indicating device such as is described in specification No. 24, any conspicuous

change of indication in this device, such as a sudden drop in the level of the liquid, occurring after the major portion of the delivery has been completed, shall be used in lieu of either of the indications mentioned above. All test and calibrations shall be made on the basis outlined above, that is, the delivery valve shall be closed, or the operation of the liquid measuring device otherwise discontinued at the termination of the period of time mentioned above, and the amount which shall then have been delivered shall be taken as the full delivery of the device for nominal quantity being delivered.

No. 26: VALVES IN DISCHARGE LINE. No liquid measuring device shall be equipped with a discharge valve at the extremity of the hose or elsewhere in the hose line unless the device is so designed and constructed either that it must be operated with the hose full of liquid at all times, or that the fact that the hose is drained will automatically become an immediately obvious one to anyone observing the operation of the device. In case the discharge valve is so positioned there shall be no other valve in any portion of the discharge line leading to this outlet. This specification is not to be construed as allowing a discharge valve in the hose in the case of devices in which, without the fact being obvious to the observer, the hose or any part thereof can be drained of liquid after the actual mechanical operation of the mechanism of the liquid measuring device is discontinued, in any way except as follows: (1) By means of the mechanically operated valve, or (2) by delivering from the measuring device more than the full measuring capacity thereof during the actual mechanical operation of the mechanism thereof.

No. 27: DRAINAGE OF DISCHARGE LINE. All liquid measuring devices shall be so constructed and installed that they will provide for the complete and rapid drainage, to a definite and uniform level, of the liquid contained in the hose or outlet pipe, and will not permit a siphoning or a continuous trickle of liquid from the discharge outlet after the operation of the mechanism is discontinued. This specification will be construed to require that if the hose is used its inlet end shall be at least five (5) feet above the normal level upon which the receiving vehicle or vessel stands, and the liquid measuring device shall be equipped with an automatic vacuum breaker, or equivalent means, to insure the complete and rapid drainage of the hose, that is required by the above. The hose shall be properly reinforced and shall be of such length and stiffness that no movable portion thereof will be readily disposed in such a way as to tend to retain liquid after the operation of the device is completed; provided, however, that this specification shall not be construed to apply to devices which, under the terms of specification No. 26, may be equipped with a shutoff valve or cock, and are to be operated with the hose full of liquid at all times. No hose longer than twelve (12) feet shall be used on any type of device.

NO 28: USE LIMITED TO CERTAIN LIQUIDS. Liquid measuring devices which will not give correct results except when used with liquids having particular properties, as for example, high viscosity, shall be conspicuously, clearly and permanently marked to indicate this limitation. Such wording may take the form, "Not suitable for gasoline or light oils", "Use only for molasses or heavy oils", or "For viscous liquids only".

No. 29: AIR RELEASE UNIT, VAPOR OR AIR IN SUPPLY LINE. Any installation of a defined stroke, piston type, liquid measuring device shall be such that the total suction head will not be sufficient to cause vaporization of the liquid for which the device is used under the highest temperature and lowest barometric pressure likely to occur. Any installation of a meter type liquid measuring device shall include an effective automatic air release unit as close as practicable to the measuring element.

No. 30: COMPUTING CHARTS. When liquid measuring devices are equipped with money value computing charts, these shall be made in accordance with one of the following principles; (a) If

the device is so designed and constructed that it purports to compute for one or for series of units prices the total price for every delivery within the range of the device, then the device shall be equipped with a value pointer or indicator and value graduation marks; and the value graduations marks shall be correctly placed and in any position which the indicator or pointer, and the chart may assume there shall be exposed to view a sufficient number of value figures and graduations to permit the value indications of the device to be read correctly. The value graduations shall not exceed one cent at all prices per gallon up to and including thirty (30) cents. At any higher price per gallon the value graduations shall not exceed two (2) cents; provided, however, that nothing in the above shall be construed to prevent the placing of a special graduation to represent each five (5) cent interval. These special graduations may take the form of dots, staggered graduations, or similar forms, and they shall be so placed that their meaning and value may be clearly understood, but they shall not be placed in the space between the regular graduation.

(b) If the device is so designed and constructed that it purports automatically to compute only for deliveries corresponding to a definite series of quantity graduations, then one of the following alternatives shall be complied with: (1) there shall be a value computation for each quantity graduation throughout the range of the device; or (2) no value indication may be exposed to view except at such times that the device registers a quantity indication for which a correct value indication is provided; or (3) each value graduation or each column or row of such graduations shall be clearly and conspicuously marked with the quantity graduation to which the value corresponds, and the device shall be marked with the character and limitations of the computations made. All money values corresponding to definite quantity graduations must be mathematically correct except as follows: If the mathematically correct amount includes a fractional part of a cent, the fraction shall be dropped if it is less than one-half, but if the fraction is one-half or more, the next higher cent may be shown.

No. 31: FRAUDULENT CONSTRUCTION PROHIBITED. All liquid measuring devices, and all devices designed to be attached thereto and used in connection therewith shall be of such design and construction that they do not facilitate the perpetration of fraud.

No. 32: METRIC SYSTEM. No specifications contained in the proceeding pages shall be understood or construed to prohibit the sale or use of liquid measuring devices constructed or graduated in units of the metric system. The tolerances to be allowed on any liquid measuring device constructed or graduated in units of the metric system shall be the same as those specified on similar apparatus of any equivalent size, or at any equivalent capacity in the customary system.

No. 33: METHOD OF OPERATION. A liquid measuring device shall be operated in accordance with the method of which is obviously indicated by its construction, or which is indicated by the manufacturer through the medium of instructions contained on the device itself, but if the device is operated in any other manner, then the commercial use of the said device shall be prohibited and it shall be subject to condemnation.

TOLERANCES

Except in special tests described above, the tolerances to be allowed in excess or deficiency on all liquid measuring devices shall be the value shown in the following tables: Provided, however, that the manufacturer's tolerances or the tolerances on all new liquid measuring devices shall be one-half of the values given; and provided further, that these latter tolerances shall also be applied to all devices which are being retested after having been found incorrect and subsequently adjusted or repaired.

Delivery Gallons:	Tolerance Cubic Inches:
$\frac{1}{2}$ or less - - - - -	2
1 - - - - -	3
2. - - - - -	4

3.	- - - - -	5
4.	- - - - -	6
5.	- - - - -	7
6.	- - - - -	8
7.	- - - - -	9
8.	- - - - -	10
9.	- - - - -	11
10.	- - - - -	12

For deliveries of over 10 gallons add 1 cubic inches per indicated gallon.

SECTION THIRTY ONE: The word "person" as used in this Ordinance shall be construed to impart the plural and singular as the case demands, and shall include corporations, companies, societies and associations. The words "weighing" and measuring devices as used in this Ordinance shall be construed to include all weights, scales, beams measures of every kind, instruments and mechanical devices for weighing or measuring and any appliances and accessories connected with any or all such instruments. The words "sell" and "sale" as used in this Ordinance shall be construed to include barter and exchange.

SECTION THIRTY TWO: GENERAL PROVISIONS FIXING PENALTY. Any person, firm or corporation, or the servant, employees, managers, officers, receivers or trustees of such, violating any of the provisions of this Ordinance, shall be guilty of a misdemeanor, and upon conviction thereof, when a separate penalty is not otherwise provided herein for such violation, shall be fined in any sum not less than \$10.00 nor more than \$200.00.

SECTION THIRTY THREE: Every section of this Ordinance and every provision of each section is hereby declared to be an individual section or provision, and the holding of any Section or provision of any section to be void, ineffective and unconstitutional for any cause whatsoever shall not be deemed to affect any other Section or provision thereof.

SECTION THIRTY FOUR: All Ordinances or parts of Ordinances in conflict herewith shall be and are hereby repealed.

SECTION THIRTY FIVE: This Ordinance shall be cumulative of all laws of the State of Texas.

SECTION THIRTY SIX: WHEREAS, an emergency is apparent for the immediate preservation of order, good government and public safety that requires this ordinance to become effective at once; therefore, upon the passage of this ordinance by a vote of four-fifths (4/5) of the Commissioners, it shall be effective from and after the date of its passage as made and provided by the Charter of the City of San Antonio.

PASSED AND APPROVED this 14 day of March, A. D. 1935.

THE STATE OF TEXAS,
COUNTY OF BEXAR,
CITY OF SAN ANTONIO.

Before me, the undersigned authority, on this day personally appeared Thorman Hall, who being by me duly sworn, says on oath that he is Secretary of the San Antonio Evening News a newspaper of general circulation in the City of San Antonio, in the State and County aforesaid, and that the Ordinance hereto attached has been published in every issue of said newspaper on the following days, to-wit: March 15, 16, 18, 19, 20, 21, 22, 23, 25, 26 1935.

Thornton Hall.

Sworn to and subscribed before me this April 4th, 1935.

Edna Brown.
Notary Public in and for Bexar,
County, Texas.

AN ORDINANCE **OH-130**

ACCEPTING AND APPROVING THE SECURTIES PLEDGED BY THE ALAMO NATIONAL BANK OF SAN ANTONIO, TEXAS, TO SECURE THE CITY FUNDS DEPOSITED AND TO BE DEPOSITED IN SAID BANK BY THE CITY DURING THE FISCAL YEAR 1934, AND DIRECTING THE DEPOSITING OF SAID SECURTIES FOR SAFE-KEEPING, AND RELEASING THE SURETIES ON ALL BONDS HERETOFORE GIVEN BY SAID BANK AS CITY DEPOSITORY.

BE IT ORDAINED BY THE COMMISSIONERS OF THE CITY OF SAN ANTONIO:-

1. That the securities pledged with the Governing Body of the City of San Antonio by the Alamo National Bank of San Antonio, Texas, as City Depository, to secure the Funds of said City deposited and to be deposited in said bank, during the fiscal year beginning June 1, 1934 and ending May 31, 1935, be and the same are hereby accepted and approved, and that receipt signed by the Mayor, countersigned by the City Auditor, and attested by the City Clerk, be given said bank for the securities pledged by it, which said securities are described as follows:

1-(a) Securities pledged by the Alamo National Bank are described in the attached Exhibit "A" which is made a part of this Ordinance by reference as fully as if it were specified herein.

2. The receipt given to said bank for the securities pledged by it shall recite, in substance, that the said securities have been duly pledged with the Governing Body of the City of San Antonio, by the Alamo National Bank of San Antonio, Texas, as a Depository of said City, for the purpose of securing the funds of said City deposited and to be deposited in said bank during the fiscal year beginning June 1, 1934, upon the terms and conditions prescribed and provided by law.

3. It is directed that said securities be deposited by the Mayor, for safe-keeping in safe deposit box in the vaults of the Alamo National Bank rented by the City from said bank.

4. That all sureties on all bonds heretofore given to said City, by said bank as City Depository, be and are hereby released from further liability as sureties on such bonds.

5. PASSED AND APPROVED this the 28th day of March, A. D. 1935.

C. K. Quin.
Mayor, City of San Antonio. Texas.

ATTEST: Jas. Simpson.
City Clerk.

"EXHIBIT A"

San Antonio, Texas.
March 26, 1935.

Received from the Alamo National Bank of San Antonio, Texas the following described securities pledged by said Bank with the governing body of the City of San Antonio for the purpose of securing the funds of the City of San Antonio deposited and to be deposited in said Bank by virtue of Ordinance passed June 6, 1933 of said City, to-wit:

1. U. S. 3-1/4% Treasury Bonds of 1945-43, with all unmatured coupons attached, being Nos. 5347, 5348 and 5349 @ \$100,000 each - - - - - \$300,000.00
2. U. S. 1-1/8% Treasury Notes, Series E-1936, due June 15, 1935, with all unmatured coupons attached, being Nos. 46 to 48 incl @ \$5,000 each - - - - - \$15,000.00
Nos. 104 @ \$10,000 each - - - - - 20,000.00
\$35,000.00
3. U. S. 2-7/8% Treasury Notes, Series B-1938, due 6/15/38, with all unmatured coupons attached, being Nos. 36739K to 26763C incl. @ \$10,000 each - - - \$ 250,000.00
4. State of Texas First Series 4% Bonds, due 10/15/37, with all unmatured coupons attached, being Bonds Nos. 1108 to 1112, both inclusive, for \$1,000 each - - - \$5,000.00
and Nos. 4140 to 4144, both incl., due 10/15/42, for \$1,000 each - - \$5,000.00
5. State of Texas 4 1/2% Second Series Bonds, due 3/1/38 with all unmatured coupons attached, being Bonds Nos. 2197 to 2199 incl. @ \$1,000 each - - - - - \$3,000.00
Nos. 2238 to 2247 incl. @ \$1,000 each - - - - - 10,000.00
\$13,000.00
6. City of Houston 5% Paving Bonds, dated 10/1/23, due 10/1/35, with all unmatured coupons attached, being Bonds Nos. 114 to 120 incl. for \$1,000 each - - - - \$7,000.00
City of Houston 5% Paving Bonds, dated 7/1/22, due 7/1/35, with all unmatured coupons attached, being Bonds Nos. 121 to 125, both incl. for \$1,000 each - - - -\$5,000.00

- 7. U. S. 3-1/8% Treasury Bond of 1949-52, with all unmatured coupons attached, being Bond No. 217H for - - - - - \$100,000.00
- 8. Federal Farm Mortgage Corp. 3% bonds of 1944-49, with all unmatured coupons attached, numbered as follows:-
 - Nos. 10852B; 10870L; 11331A to 11334D incl; 11352B @ \$5,000 - - - \$ 40,000.00
 - Nos. 13496F; 13497H to 13499K inclusive : \$10,00 each - - - - - 40,000.00
 - \$80,000.00

Grand total of above securities - \$800,000.00

The said securities have been deposited in Safe Deposit Box No. C-456 and have been duly pledged with the governing body of the City of San Antonio by the Alamo National Bank of San Antonio, Texas, as a depository of said City, for the purpose of securing the funds of said City, deposited and to be deposited in said Bank by virtue of Ordinance passed June 6, 1933, of said City, upon the terms and conditions prescribed and provided by law.

AN ORDINANCE *OH-132*

PROHIBITING THE OPERATION OF ANY DEVICE, MACHINE, APPARATUS OR INSTRUMENT TO INTENSIFY OR AMPLIFY OR REPRODUCE THE HUMAN VOICE OR ANY OTHER SOUND, ON ANY PUBLIC STREET IN THE CITY OF SAN ANTONIO, TO PRESERVE THE QUIET AND GOOD ORDER OF THE CITY AND TO PREVENT THE DISTURBANCE OF PERSONS OWNING, USING OR OCCUPYING PROPERTY ADJACENT TO THE PUBLIC STREETS.

BE IT ORDAINED BY THE COMMISSIONERS OF THE CITY OF SAN ANTONIO:-

1. That it shall be unlawful for any person to use or operate, or cause to be used or operated, any mechanical or electrical device, machine, apparatus or instrument to intensify or to amplify or to reproduce the human voice, or any other sound, on any public street within the corporate limits of the City of San Antonio.
2. The purpose of this ordinance is to prevent any noise on any public street which is reasonably calculated to disturb the peace and good order of the neighborhood or of persons owning,
