**SPECIAL SPECIFICATION**  
**Item SP800 Project Signs**

**Article SP800.1. Description.** Furnish, install, maintain, move and remove project information signs on each street whenever workmen, materials or equipment is present, or as directed. Project information signs will not be specific to any individual street within the program and may be moved from site to site and reused throughout the duration of the contract.

**Article SP800.2. Materials.** Furnish signs meeting the materials specifications of Item 531, the Barricade and Construction Standard details in the plans, and following the attached template of the layout, fonts, colors, size, and legend.

**Article SP800.3. Construction.** Erect all signs in conformance with the requirements of the TMUTCD and the Barricade and Construction Standard Details. It is the contractor's responsibility to see that all signs are properly installed and maintained at the job site. Erect project information signs at the locations directed by the Inspector, generally one sign facing each direction entering the project work area. Maintain the project sign so that no visual defect or graffiti is visible.

**Article SP800.4. Measurement.** Project signs will not be measured for payment.

**Article SP800.5. Payment.** The accepted quantity of signs shall not be paid for directly, but the cost for furnishing all materials, labor, tools, equipment and supplies to construct the signs, mountings, installation at the various street sites, maintaining the signs, moving the signs from street to street, and removal of signs will be subsidiary to the various items in the contract.

Bid Item: Not applicable
